Corning® LSE™ Vortex Mixer

Efficient mixing, minimal vibration, maximum versatility

CORNING

The Corning LSE variable speed vortex mixer provides fast, efficient mixing with minimal vibration. A three position switch allows the mixer to be operated continuously or by touch activation. The heavy metal base and rubber feet prevent the unit from moving across the bench, even at maximum speed.

A range of accessories are available for all common sample tubes and containers.

Features

- Variable speed for gentle to vigorous mixing adjustable up to 3,500 rpm
- Optimized counter balance for minimal vibration
- Lightweight and portable
- Includes cup head for all standard microcentrifuge and centrifuge tubes
- Mix a variety of tubes and plates with optional accessory heads
- Touch and continuous mix modes
- Brushless DC motor ensures quiet, vibration-free operation with consistent mixing performance and long service life
- Universal power supply (100-240V) with interchangeable plug adapters for global use (USA, EU, GBR, JPN, CHN)
- 2-year warranty
