Technical Data Sheet

Description

- Pierce Heat Seal 610m x 78 mm (4Ti-0530)

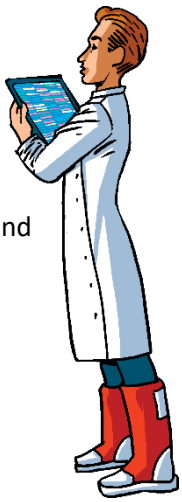

Part number

- 016679F

Pieces by sales

- 1 roll

Technical data

- Heat sealing foil that seals to polypropylene and polystyrene plates. Fit for PCR, compound storage, shipping.

- Dimension :
  - 1 roll : 610m x 78mm (approx. 5,000 seals)

- Properties & Material :
  - Pierceable
  - Resealable
  - Seal integrity range: -20°C to 120°C
  - Good solvent resistance
  - Autoclavable (121°C)
  - Non-sterile as standard; sterilization available upon request

- Use :
  - Seals polypropylene and polystyrene plates
  - Suitable for long term storage
