Technical data sheet

Adhesive tape with Ethylenoxid Indicator
3FKLB410308

Article No.: 3FKLB410308	Revision No.: 0
Date: 25.08.2022	Page: 1 of 1

Field of application: Packing material for sterilisation applications

Material: Paper

Size:
Reel with: 19 mm
Reel length: 50 m

Sterilisation suitability: Ethylenoxid sterilisation

Technical Data:
Paper naturell
One side coated

Print/indicator:
Print: n/a
Ethylenoxid Indicator: pale yellow
The indicator color changed from pale yellow to dark green/blue

Standards: Process indicator type 1 according to ISO 11140 part 1

Shipping unit:
48 reels per carton.
Each reel packaged individually in PE film.

Shelf life:
If stored under proper conditions from the date of manufacture 30 months.

Temperature	Max. relative air humidity:
+15°C - +25°C	65 %

Substances: Our product does not contain PVC, Bisphenol A, TSE/BSE risk materials, SVHC Substances and Phthalates as part of the formulations.

Technical data is submitted to the usual variations of operating procedures.
Therefore it is not compulsory and does not exempt from validation and operating.
