Whatman™ Grade 1573 ½ Qualitative Filter Papers

A medium fast filter paper with high wet strength. This paper has the same chemical resistance characteristics as Grade 1573

Overview

A medium fast filter paper with high wet strength. This paper has the same chemical resistance characteristics as Grade 1573

- Savings in time required to quadrant-fold circles to fit conical filter funnels in repetitive or multiple analyses.
- Decreased overall filtration time because of the extra surface area exposed; the normal slow down of filtration speed due to the loading of particulate is postponed.
- Increased total loading capacity as more filter area is available.
- Maintained flow rate due to the reduction in filter paper contact with funnel side and the self-supporting shape of the filter itself.
- The prepleating does not significantly affect any of the technical data, and the same figures may be used for the flat circles.

Time-saving Whatman qualitative grades are offered in this convenient form, which gives major advantages over flat circles.

Also available in flat stock form as Grade 1574.

Product specifications
Whatman™ Grade 1573 ½ qualitative filter paper, folded (prepleated), 150 mm (100/Pk)

Catalog code	10314745
Diameter	150 mm
Pack size	100/Pk
Format	Prepleated

Grade	Grade 1573 ½
Material	High-quality cotton linters
Basis weight	88 g/m²
Filtration speed (herzberg)	Approx. 25
Grade Type	Folded (Prepleated)
