Technical Data Sheet

Description

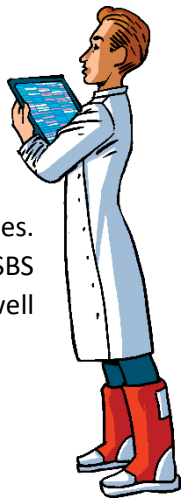

- Polystyrene Foil Heat Seal (125 x 78mm); 100 sheets [4Ti-0547]

Part number

- 044858

Pieces by sales

- 100 sheets

Technical data

- Heat sealing polystyrene foil that seals to polystyrene, polypropylene, and polycarbonate plates. Fit for low temperature compound storage in DMSO and organic solvents. To fit all standard SBS footprint PCR and qPCR plates, microplates, assay and storage plates, from 12 well to 1536 well

- Dimension :
  - 125 x 78mm; 100 sheets

- Properties & Material :
  - Pierceable
  - Peelable
  - Moderate solvent resistance
  - Resealable foil on foil
  - Seal integrity range: -20°C to 110°C
  - Non-sterile as standard

- Use :
  - Seals polypropylene, polystyrene and polycarbonate plates
  - Suitable for short term storage
  - Suitable for low temperature compound storage
