Technical Data Sheet

Description

- Foil Heat Seal (500m x 115mm, approx. 6,200 seals) [4Ti-0537/REMP]

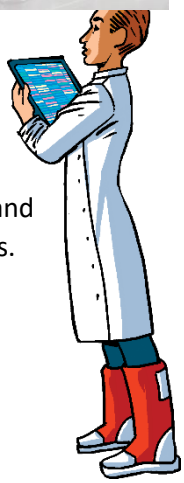

Part number

- 044945

Pieces by sales

- 1 roll

Technical data

- Heat sealing aluminum foil, resealable, peelable, pierceable, that seals to polypropylene and polystyrene plates. Fit for low temperature compound storage in DMSO and organic solvents.

- Dimension :
  - 1 roll : 500m x 115mm (approx. 6,200 seals)

- Properties & Material :
  - Pierceable
  - Resealable
  - Seal integrity range: -20°C to 110°C
  - Moderate solvent resistance
  - Autoclavable (121°C)
  - Non-sterile as standard

- Use :
  - Seals polypropylene and polystyrene plates
  - Suitable for short term storage
