Technical Data Sheet

Description

PLAQUE MULTISCREEN x 50

Part number

051454

Pieces by sales : 50

Description

• **Quality Segment 500 :** material Durapore PVDF membrane, clear polystyrene plate, flat bottom wells description Receptor binding assays on whole cells and cell fragments, protein kinase/phosphatase precipitation assays, bead/resin based assays sterility non-sterile product line MultiScreen® usage Automated feature hydrophilic, lid packaging pkg of 10 plates, pkg of 50 plates IVD for in vitro diagnostic use technique(s) activity assay: suitable (protein kinase/phosphatase precipitation), bead-based assay: suitable, ligand binding assay: suitable, low protein binding filtration: suitable, receptor binding assay: suitable, solubility assay: suitable filtration area 0.28 cm2 plate size 96 wells well maximum volume 300 µL working volume 50-250 µL matrix Durapore® pore size 0.45 µm pore size application(s) sample preparation binding type low binding surface compatibility centrifuge & manifold shipped in ambient storage temp. 10-30°C
• **Quality Segment :** 500
• **material :** Durapore PVDF membrane, clear polystyrene plate, flat bottom wells
• **description :** Receptor binding assays on whole cells and cell fragments, protein kinase/phosphatase precipitation assays, bead/resin based assays
• **sterility :** non-sterile
• **product line :** MultiScreen®
• **usage :** Automated
• **feature :** hydrophilic, lid
• **packaging :** pkg of 10 plates, pkg of 50 plates
• **IVD :** for in vitro diagnostic use
• **technique(s) :** activity assay: suitable (protein kinase/phosphatase precipitation), bead-based assay: suitable, ligand binding assay: suitable, low protein binding filtration: suitable, receptor binding assay: suitable, solubility assay: suitable
• **filtration area :** 0.28 cm2
• **plate size :** 96 wells
• **well maximum volume :** 300 µL
• **working volume :** 50-250 µL
• **matrix :** Durapore®

Technical Data Sheet

- **pore size :** 0.45 µm pore size
- **application(s) :** sample preparation
- **binding type :** low binding surface
- **compatibility :** centrifuge & manifold
- **shipped in :** ambient
- **storage temp. :** 10-30°C
