From: Whirl-Pak®

Subject: FDA Certification

Based upon our knowledge and the assurances received from our supplier, the BG-T4 film used in the manufacture of Whirl-Pak® sampling bags is produced from a blend of polyethylene resins that have been certified to meet the requirements of FDA regulations 21 CFR 170.30-GRAS. This means that these materials are acceptable for use in food packaging applications at temperatures below cooking temperatures.

Whirl-Pak® does not have information as to the specific end use and specific conditions pouches will be exposed to.

If you have any questions, or need assistance, please email our Customer Support team at contact@whirl-pak.com. For Frequently asked questions please visit our website www.whirl-pak.com/frequently-asked-questions
