Subject: Statement on Animal Derived Substances (BSE/TSE) for Thermo Scientific™ Nunc™ Catalog Number 375418

Dear Valued Customer:

Thermo Scientific™ catalog number 375418 is manufactured using the materials listed in the table below.

The material suppliers have provided the following content status for animal derived substances.

Component Part Number	Component Description	Material of Construction	Content status of animal derived substances
69436	Tube	PP resin	The PP resin supplier has indicated that additives of animal origin are not used or intentionally incorporated during manufacturing. The resin supplier further indicated that while substances of animal origin are not expected to be present, they do not specifically test for these substances.
43847	Closure	HDPE resin	The HDPE resin supplier has indicated that tallow derived additives may be used in the manufacture of this resin. The resin supplier further indicated that tallow derived materials used in this resin fulfill the requirements laid down in regulations 1069/2009/EC, 142/2011/EC and the “Note for Guidance EMA/410/01, and as amended.

Thermo Fisher Scientific does not reserve production equipment for raw materials that are free of animal origin ingredients.

This document was prepared by the Thermo Fisher Scientific, Laboratory Plastic Essentials, Regulatory Affairs department. It has been prepared electronically and is valid without signature.
