## **N-Nitrosamines Statement**

N-nitrosamines are not intentionally used by Corning Life Sciences (CLS) or CLS material suppliers as part of the manufacturing process of these products. Although these products are not routinely tested for their presence, based on product composition knowledge, these substances are not expected to be present. However, the fact that these substances are not intentionally used by CLS or CLS material suppliers does not exclude that trace levels of these substances may be present as a result of the specific characteristics of the raw materials and/or of the manufacturing process. Final determination of the suitability of any materials for their applications is the sole responsibility of the user.

If you have any questions or concerns, please contact us at [ScientificSupport@corning.com](mailto:ScientificSupport@corning.com)

Sincerely,

*Scott Fixman*
