- Manufactured from borosilicate glass 3.3
- Spout for clean pouring
- Fired-on, highly durable white ceramic
- Easy-to-read scale with graduation marks to estimate the content

Catalog Number: **211065305**

Product Overview

Beakers are cylindrical vessels with a straight side wall. Thanks to this shape, beakers are universally usable laboratory vessels and usually serve as collecting vessels and for preparing, mixing and heating solutions. Easy filling is possible via the large vessel opening. Beakers are available in various shapes and sizes: tall and low, with or without spout, with or without scale.
