Crimp Cap, ND20, Open Top, Headspace Magnetic, Gold, with liner: butyl grey / PTFE clear

- Metal caps for headspace vials are available in three different styles: standard, pressure release and magnetic.
- Pressure release seals are characterized by incorporated bridges and scorelines, which allow the internal pressure to be released when 3.0±0.5 bar has been exceeded
- Magnetic seals are compatible with magnetic transport autosamplers
- Packed in zip-lock PE-bags with tear-off foil strip to ensure tamper-evidence and re-closeability

Catalog Number: **225699**

Product Overview

The quality of a crimp seal is strongly dependent on the right calibration of the crimping tool used to apply the closure to the vial. A too tight or too loose crimp will impair the quality of the seal. To maintain good results, make sure to re-calibrate your crimping tool regularly and check the quality of the seal every time you crimp.

Specifications

Remarks	cap size: ND20
Material	Aluminium, Butyl grau / PTFE natur
Color	gold
Colour	gold
Diameter d (mm)	20.7
Height h (mm)	7.62
Diameter (mm)	20.7

DWK LIFE SCIENCES
DOMINIQUE DUTSCHER SAS

Diameter (mm)	20.7
Closure Color	Gold
Cap Material	Aluminium
Septa Material	Butyl grey / PTFE natural
Height (mm)	7.62
Cap Description	open top
Closure Size	ND20
Septa Thickness (mm)	2.3
PTFE Thickness (mm)	0.0127
Autoclavable	yes
Fits Neck Diameter (mm)	20
Quantity	100
Durometer	55 +/- 5 shore A
