

# SPECIFICATION SHEET

Device Code : 137-100-14

Date : 17-01-2022

Decive Name : Thumb Dressing Forceps 140 mm

## **A** Device Specification :

1. Drawing : See Attached Drawing
2. Size : 140 mm
3. Finish : Satin
4. Marking : Device shall be stamped `CE` Pakistan and stainless.  
Name / Logo if required by the Customer.
5. Intended Use : Device shall be used for holding and punching purposes.
6. Function/ Attributes : Mostly used to hold or punch and proper tention.

## **B** Composition Specification :

1. Steel Type used : AISI 410 steel type.
2. Steel Weight used : 1 piece shall have a weight of 25 gm+\_5gm.
3. Required Hardness : 41 to 45 HRC
4. Furnace Temperature : 900°C to 1100°C

## **C** Component / Specification :

Component Required : 2 Components. Material Type Used: AISI 410  
Component Required : Material Type Used:

## **D** List of Applicable Standards:

- 1) ASTM Standard
- 2) ISO 13485:2016
- 3) ISO 9001:2015
- 4) 93/42/EEC Class I

For Raw Material
