# Corning<sup>®</sup> Lambda<sup>™</sup> EliteMax Semi-automated Benchtop Pipettor

High Throughput Automation with a Small Footprint

**CORNING** 

The Corning Lambda EliteMax Benchtop Pipettor is a semiautomated, affordable, and easy-to-use liquid handler for lab benches that are tight on space but require the power and ability to perform high content screenings for large volumes of assays. This is the optimal solution for purification, isolation, and extraction methods for sample preparation and compound management.

Operation of this device is managed either manually or through a large screen user-interface that makes it easy for customers to use. The speed of the dual, single- and multi-channel head can be changed depending on the liquid or compound type being transferred. In addition, the blowout feature helps to dispense all excess liquid that may remain in the tip after the dispensing process.

There are five deck seating positions on the platform, and consumables can be arranged in a landscape or portrait orientation. Multiple user accounts can be set up for the system to store user preferences, protocols, and methods. The USB flash drive port supports data exchange and backup files.

### **Features and Benefits**

- Plate filling from reagent reservoirs
- Serial dilutions, plate-to-plate transfers, tube-to-tube transfers, and plate replication
- Well-to-well transfers (cherry picking protocol for singlechannel head only). Unit comes with a single-channel and 12-channel head installed.
- Accurately and precisely transferring liquids and compounds between microplates
- Transferring by row or by column
- Additional complex applications can be performed such as sample preparation, timed reaction, PCR preparation, cellbased assays set up

# **Specifications**

# **Performance Specifications**

Pipetting Channels	Single-channel and 12-channel for 96-well format	
Volume Range	1 μL to 200 μL	
Plate Formats	96-well standard, shallow, deep well, microcentrifuge, V-, U-, and flat-bottom	
Accuracy		
20 μL	<±2.0%	
100 μL	<±1.5%	
200 μL	<±1.0%	
Precision		
20 μL	<1.5% CV	
100 μL	<1.0% CV	
200 μL	<0.7% CV	

#### **Technical Data**

20.5 x 11.3 x 14.2 in. (520 x 285 x 360 mm) 11.3 x 6.3 x 5.3 in. (284 x 160 x 135 mm) 55 in. (140 cm) 72 in. (183 cm) 60 in. (152.4 cm)	
44 lbs. (20 kg) 3.3 lbs. (1.5 kg)	
100-240 VAC, 47-63 Hz 24 VDC, 120W (US, EU, UK, CHN plug types included)	
5°C to 40°C (relative humidity 80% up to 30°C or 45% relative humidity at 40°C)	
-10°C to +50°C	

# **Ordering Information**

## Corning® Lambda™ EliteMax Semi-automated Benchtop Pipettor

Cat. No.	Description	Qty/Cs
6070	Corning Lambda EliteMax semi-automated benchtop pipettor	1
	(touch screen controller with software and license included)
