

TS/15-BPW

Blue Cellulose sponge in Easy Open Stomacher Pouch, individually packed & dosed with 10 ml of Buffered Peptone Water solution.

Product Code	TS/15-BPW
Description	Blue cellulose sponge in Easy Open Stomacher Pouch, individually packed & dosed with 10 ml of Buffered Peptone Water solution
Intended Use	Sampling of environmental areas and carcasses under special conditions (see Precautions & Limitations) for Microbiological analysis
Components	Cellulose blue sponge, Easy Open Stomacher Pouch
Contents	De-ionised Water – 1 Litre Buffered Peptone water powder 20.0g
Method of Sterilisation	Sterilised by gamma irradiation at dosage of 25-42K Gy
Shelf Life	12 months from date of manufacture
Storage Conditions	4-25 °C; Store in dry and ventilated area; protect from light, heat and moisture in tightly closed original container
Precautions and Limitations	1. Due to the nutritious composition, any sampling must be rinsed thoroughly with copious amounts of water to remove product residues as these will encourage spoilage/pathogenic micro-organism growth. See TS/15-B:NaCl for direct sampling alternative
Pack Size	200 in a box
Other	Quality control testing details on final product: i) Validation of irradiation sterility. ii) Organism Recovery.

This specification is intended for guidance only.

You should always refer to a professional with experience in your intended application if in any doubt.
