## AUTOMATIC CRIMPING TOOL HIGH PERFORMANCE

### High Performance Crimping Tools

Our High Performance Crimping Tool is designed with inter-changeable jaws, so that you only need one tool and purchase the size crimper and decappers needed for your laboratory. The jaw sets are available as crimper and decappers which fit standard lab vials seals with aluminum or two-part aluminum/steel caps. This crimping tool has the ability to store separate programs for different caps and cap sizes. The tools are ergonomically designed to reduce strain and arm injury associated with many manual crimping tools.

Product Highlights	
<ul style="list-style-type: none"><li>• Our fastest and most powerful crimping tool</li></ul>	<ul style="list-style-type: none"><li>• Strong enough for all steel and magnetic caps</li></ul>
