**Subject: Statement on Animal Derived Components for Thermo Scientific™ Nunc™
Catalog Number Series 339650, 339651, 339652 and 339653**

Dear Customer:

Per your request, below is the Thermo Fisher Scientific statement on the use of animal derived components in manufacturing Nunc catalog number series 339650, 339651, 339652 and 339653. The approved supplier uses 3 raw materials in the manufacture of the tube and cap.

The tube is manufactured using polypropylene (PP) and the Cap is manufactured using high density (HDPE) and Blue Colorant. Our supplier states the tube and cap is manufactured wholly from synthetic or manufacture materials and do not contain any raw material produced from, or substances derived of animal origin. Further the supplier declares that all finished products manufactured comply with EU 999/2001 and EMA 410/01.

Sincerely,

Jessica Garigen
