

Technical sheet

AQUANET

WATER BATH STABILIZER

Original formula, very effective in particular on the proliferation of bacteria, prevents the appearance of unpleasant odors.

ACTIVE SUBSTANCES

Contains :

Didecyldimethylammonium chloride – N° CAS 7173-51-5

Concentration 15% (m/m)

Benzalkonium chloride – N° CAS 68424-85-1

Concentration 10% (m/m)

MICROBIOLOGICAL PROPERTIES

- **Bactericidal activity, in dirty conditions at 20°C:**
EN1276, EN 13697, EN 13727 (dirty conditions – 0.5% - 5min)
EN 14561 (dirty conditions – 1% - 5min)
- **Yeasticidal activity, in dirty conditions at 20°C:**
EN 1650, EN 13697 (dirty conditions – 0.25% - 15min)
EN 13624 (dirty conditions – 0.5% - 5min)
EN 14562 (dirty conditions – 0.5% - 15min)
- **Fungicidal activity, in dirty conditions at 20°C:**
EN 1650 (dirty conditions – 0.5% - 15min)
EN 13697 (dirty conditions – 2% - 15min)
- **Sporicidal activity, in clean conditions at 20°C:**
EN 13704 (clean conditions – 5% - 60min)
- **Virucidal activity, in dirty conditions at 20°C:**
EN 14476+A2 complete on Poliovirus, Adénovirus, Norovirus (dirty conditions – 2% - 15min)

Additional activities:

EN 14476+A1, enveloped viruses:

Vaccinia, Coronavirus, Herpès (dirty conditions at 20°C – 0.5% - 5min)

According to EN 14476+A1 :

Rotavirus (dirty conditions at 20°C – 0.5% - 5min)

HIV (dirty conditions at 20°C 20°C – 2% - 60s)

H1N1, PRV, BVDV (dirty conditions at 20°C – 2% - 5min)

According to EN 14476+A2 :

Papillomavirus (dirty conditions at 20°C – 2% - 15min)

PHYSICO-CHEMICAL CHARACTERISTICS

- **Physical state** : liquid
- **Smell** : pine
- **Color** : blue
- **pH** : 10,5
- **pH diluted at 0.5%** : 8,00 – 9,00

DIRECTIONS FOR USE

Recommended dosage: 100mL for 3 liters of water, for 2 months effectiveness.

STORAGE

Store away from light and heat

PACKAGING

Ref : 0301 100mL bottle.

Ref : 0302 1 liter bottle.
