

PIPETMAN Neo[®]

The Pipetting Standard with Improved Comfort!

ACCURATE & PRECISE
SMOOTH PIPETTING
ROBUST & LONG LASTING

NOW AVAILABLE
NEW
IN 8 & 12 CHANNELS

PIPETTING STANDARD - LOWER PIPETTING FORCES

PIPETMAN Neo is **performance and precision exemplified**. It provides all the benefits that built the reputation of the legendary PIPETMAN, with the added bonus of increased comfort. Easy to use, you will especially appreciate the smoothness of the piston stroke. With uncontested reliability and durability, PIPETMAN Neo is **the economical solution to years of pipetting comfort**.

All the features you need:

Advancing your research

Your guarantee for *accurate & precise results, over time!*

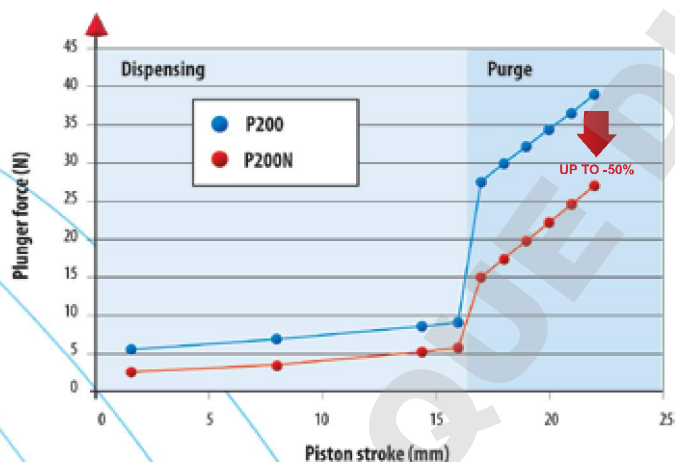

PRECISION WORLD STANDARD

Gilson's quality standards are so rigorous that no doubt, you will trust your results:

- On average, PIPETMAN permissible errors are 2 times better than those recommended by ISO. PIPETMAN Neo display indicates the decimal point and the volumetric units.
- Its handle minimizes the hand-warming effect, keeping liquids in the tip... not dripping on the bench.

UNIVERSAL TIP COMPLIANCE

PIPETMAN Neo tip mounting technology allows the use of most other brands of tips.

Improving your pipetting experience

Your comfort through *perfect fit & feel!*

COMFORTABLE PIPETTING

PIPETMAN Neo is the new comfortable generation of the PIPETMAN P. Its forceless gesture smoothes daily manipulation and keeps pipetting exertion to a minimal.

To each it's own:

• PIPETMAN Neo®

SINGLE CHANNEL is available in 6 models and covers the volume range from 0.2 μ L to 1 mL.

• PIPETMAN Neo®

MULTICHANNEL is available in 4 models and covers the volume range from 2 μ L to 200 μ L.

Getting more for less

Your assurance that *it won't let you down!*

PREMIUM ROBUSTNESS

Made of high resistance materials, PIPETMAN Neo offers excellence in robustness and durability. Built to last, your pipette will have a long, productive life. As a reliable partner, it will protect you from frequent changes to your favorite labtool and contribute to protection of the environment.

EASY TO MAINTAIN

Routine cleaning is all that's required to keep your PIPETMAN in top condition for years:

- It has been designed in way to access user-serviceable parts, easily directly in your laboratory, gaining uptime and productivity.
- Original parts will always be available through Gilson Service centers of Excellence... no matter how old your PIPETMAN is!

EASY TO AUTOCLAVE

Parts that may come in contact with liquids are easy to clean, keeping your PIPETMAN Neo in like new condition, longer. The lower part is autoclavable, allowing proactive protection against accidental contamination.

Complete your equipment with:

SINGLE™
holder

TRIO™
stand

CARROUSEL™
stand

THE JIMMY™

Reagent Reservoirs

• PIPETMAN Neo®

KITS complement the product range and offer cost-effective package to get you started or to renew your old set of pipette.

Gilson's secured pipetting system

Choosing quality tips is the best way to protect your experiment and according to ISO 8655-2*: "The maximum permissible errors always apply to the total system of piston pipette and tip. When using pipette tips not delivered by the pipette supplier, the supplier declaration or certificate of conformity does not apply".

*ISO 8655 is an international standard for "piston operated apparatus". It defines, among other things, terms and definitions regarding piston operated pipettes and their testing, testing procedure and maximum permissible errors.
