## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

### SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1. Product identifier

Product name : Sulfuric acid  
SDS-number : 000000016361  
Type of product : Mixture  
Remarks : SDS according to Art. 31 of Regulation (EC) 1907/2006.

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : Laboratory chemicals  
Uses advised against : none

#### 1.3. Details of the supplier of the safety data sheet

Company : Honeywell International Inc.      Honeywell International, Inc.  
115 Tabor Road                                      115 Tabor Road  
07950-2546 Morris Plains                        Morris Plains, NJ 07950-2546  
USA    USA

Telephone :  
For further information, please contact: : SafetyDataSheet@Honeywell.com

#### 1.4. Emergency telephone number

Emergency telephone number : +1-703-527-3887 (ChemTrec-Transport)  
+1-303-389-1414 (Medical)  
: Poison Control Center:  
United Kingdom: (+44) 844 892 0111

### SECTION 2: Hazards identification

#### 2.1. Classification of the substance or mixture

**REGULATION (EC) No 1272/2008**

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended

**Honeywell**  
**Fluka™**

## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

Skin corrosion Category 1A  
H314 Causes severe skin burns and eye damage.

### 2.2. Label elements

#### REGULATION (EC) No 1272/2008

Hazard pictograms	:		
Signal word	:	Danger	
Hazard statements	:	H314	Causes severe skin burns and eye damage.
Precautionary statements	:	P260	Do not breathe dust/ fume/ gas/ mist/ vapours/ spray.
		P280	Wear protective gloves/protective clothing/eye protection/face protection.
		P301 + P330 + P331	IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.
		P302 + P352	IF ON SKIN: Wash with plenty of water.
		P304 + P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.
		P305 + P351 + P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
		P308 + P313	IF exposed or concerned: Get medical advice/ attention.
Hazardous components which must be listed on the label	:	sulphuric acid	

### 2.3. Other hazards

Reacts violently with water. Inhaled corrosive substances can lead to a toxic oedema of the lungs. The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended

**Honeywell**  
**Fluka™**

## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

Regulation (EU) 2018/605 at levels of 0.1% or higher. This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Not applicable

#### 3.2. Mixtures

Chemical name	CAS-No. Index-No. REACH Registration Number EC-No.	Classification 1272/2008	Concentration	Remarks
sulphuric acid	7664-93-9 016-020-00-8 231-639-5	Skin Corr. 1A; H314	$\geq 50\%$ - $\leq 100\%$	Skin Irrit. 2; H315:5 - < 15 % Eye Irrit. 2; H319:5 - < 15 % Skin Corr. 1A; H314: $\geq 15\%$

Remaining components of this product are non-hazardous and/or are present at concentrations below reportable limits.

Occupational Exposure Limit(s), if available, are listed in Section 8.  
For the full text of the H-Statements mentioned in this Section, see Section 16.

### SECTION 4: First aid measures

#### 4.1 Description of first aid measures

##### *General advice:*

First aider needs to protect himself. Move out of dangerous area. Immediately take off contaminated clothing and rinse body with plenty of water.

##### *Inhalation:*

Remove to fresh air. If breathing is difficult, give oxygen. Use oxygen as required, provided a qualified operator is present. Call a physician immediately.

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended

**Honeywell**  
**Fluka™**

## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

### *Skin contact:*

Wash off immediately with plenty of water for at least 15 minutes. Take off contaminated clothing and shoes immediately. Immediate medical treatment is necessary as untreated wounds from corrosion of the skin heal slowly and with difficulty. Call a physician immediately.

### *Eye contact:*

Protect unharmed eye. Irrigate eyes for at least 15 minutes with copious quantities of water, keeping eyelids apart and away from eyeballs during irrigation. Small amounts splashed into eyes can cause irreversible tissue damage and blindness. Call a physician immediately.

### *Ingestion:*

Clean mouth with water and drink afterwards plenty of water. Magnesium hydroxide (milk of Magnesia) as an antacid may be given. Do NOT induce vomiting. Call a physician immediately.

## **4.2. Most important symptoms and effects, both acute and delayed**

No data available

## **4.3. Indication of any immediate medical attention and special treatment needed**

Treat symptomatically.

See Section 11 for more detailed information on health effects and symptoms.

**Honeywell**  
**Fluka™**

## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

---

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

*Suitable extinguishing media:*

Foam  
Carbon dioxide (CO<sub>2</sub>)  
Dry powder

*Extinguishing media which shall not be used for safety reasons:*

Water  
Do NOT use water jet.  
Contact with a relatively small quantity of water creates violent reaction generating much heat and spattering of hot acid

#### 5.2. Special hazards arising from the substance or mixture

Fire may cause evolution of:  
Sulphur oxides  
Some risk may be expected of corrosive and toxic decomposition products.  
Exposure to decomposition products may be a hazard to health.  
Cool closed containers exposed to fire with water spray.  
In case of a spillage, the resulting acid solution may attack many metals with liberation of hydrogen which is flammable and forms explosive mixture with air

#### 5.3. Advice for firefighters

Wear self-contained breathing apparatus and protective suit.  
No unprotected exposed skin areas.  
Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. The product itself does not burn. Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

---

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

Evacuate personnel to safe areas. Wear personal protective equipment. Unprotected persons must be kept away. Keep people away from and upwind of spill/leak. Provide adequate ventilation.

#### 6.2. Environmental precautions

# SAFETY DATA SHEET

according to Regulation (EC) No. 1907/2006, as amended

**Honeywell**  
**Fluka™**

## Sulfuric acid

07208-1L

Version 1.6

Revision Date 31.01.2024

Do not flush into surface water or sanitary sewer system. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities. Suppress (knock down) gases/vapours/mists with a water spray jet.

### 6.3. Methods and materials for containment and cleaning up

Dilute with water.  
Soak up with inert absorbent material.  
Pick for disposal in tightly closed containers

### 6.4. Reference to other sections

For personal protection see section 8.

---

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

#### *Advice on safe handling:*

Use only acid resistant equipment. Plan first aid action before beginning work with this product. Always have on hand a first-aid kit, together with proper instructions. Ventilators required at emission site. Wear personal protective equipment. When diluting, always add the product to water. Never add water to the product.

#### *Advice on protection against fire and explosion:*

Normal measures for preventive fire protection. In case of a spillage, the resulting acid solution may attack many metals with liberation of hydrogen which is flammable and forms explosive mixture with air

#### *Hygiene measures:*

Separate rooms are required for washing, showering and changing clothes. Contaminated work clothing should not be allowed out of the workplace. Keep working clothes separately. Take off all contaminated clothing immediately. Remove and wash contaminated clothing before re-use. Wash hands before breaks and at the end of workday. Avoid contact with the skin and the eyes.

### 7.2. Conditions for safe storage, including any incompatibilities

#### *Further information on storage conditions:*

Store in original container. Keep containers tightly closed in a dry, cool and well-ventilated place. Product is hygroscopic. Do not leave vessels/containers open. Avoid product residues in/on containers.

07208-1L

Version 1.6

Revision Date 31.01.2024

sulphuric acid	Fresh water sediment: 0,002 mg/l	
sulphuric acid	Marine sediment: 0,002 mg/l	

### 8.2. Exposure controls

#### Occupational exposure controls

The Personal Protective Equipment must be in accordance with EN standards:respirator EN 136, 140, 149; safety glasses EN 166; protective suit: EN 340, 463, 468, 943-1, 943-2; gloves EN 374, 511; safety shoes EN-ISO 20345.

Do not breathe vapours or spray mist.

#### Engineering measures

Use with local exhaust ventilation.

Emergency sprinkling nozzle

acid resisting floor

#### Personal protective equipment

*Respiratory protection:*

B-P3

In the case of vapour formation use a respirator with an approved filter.

Recommended Filter type:

Inorganic gas/vapour type

*Hand protection:*

Glove material: Viton®

Break through time: > 480 min

Glove thickness: 0,7 mm

Vitoject® 890

Gloves must be inspected prior to use.

Replace when worn.

Remarks:Supplementary note: The specifications are based on information and tests from similar substances by analogy.

Due to varying conditions ( e.g.temperature or other strains) it must be considered that the usage of a chemical protective glove in practice may be much shorter than the permeation time determined in accordance with EN 374.

Since actual conditions of practical use often deviate from standardised conditions according EN 374 the glove manufacturer recommends to use the chemical protective glove in practice not longer than 50% of the recommended permeation time.

Manufacturer's directions for use should be observed because of great diversity of types .

Suitable gloves tested according EN 374 are supplied e.g. from KCL GmbH, D-36124 Eichenzell, Vertrieb@kcl.de

ca.338 °C

Decomposition temperature

### 10.3. Possibility of hazardous reactions

Hazardous polymerisation does not occur.

### 10.4. Conditions to avoid

Protect from atmospheric moisture and water.  
Corrodes metals in the presence of water or moisture.

### 10.5. Incompatible materials

Reacts violently with water.  
On dilution or dissolving in water, considerable heating always occurs.  
Gives off hydrogen by reaction with metals.  
Reactions with combustible substances.  
Incompatible with bases.

### 10.6. Hazardous decomposition products

Sulphur dioxide

Sulphur trioxide

---

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

#### (a) Acute toxicity

*Acute oral toxicity:*

Toxicity is determined by the corrosivity of the product.

*Acute dermal toxicity:*

Toxicity is determined by the corrosivity of the product.

*Acute inhalation toxicity:*

Toxicity is determined by the corrosivity of the product.

*Acute toxicity (other routes of administration):*

No data available
