Regulation (EU) 2016/425

Module B, EU type-examination

Issue 2

PPE Product

DuPont® (Logo) ProShield® 60 model P6127S, hooded coverall, manufactured from a white nonwoven fabric, with sewn internal seams, a front zip closure with flap and elasticated at the hood, cuffs, ankles & the back of the waistline. This coverall is available in ten nominal sizes.

It is certified that the manufacturer's technical file and the above mentioned PPE have been assessed and found to meet the applicable Essential Health and Safety Requirements in Annex II of Regulation (EU) 2016/425 Personal Protective Equipment

The following have been applied:

- EN ISO 13982-1:2004 + A1:2010 (Type 5: Limited life, full body protection against airborne solid particulates);
- EN 13034:2005 + A1:2009 (Type 6: Limited life, full body chemical protective clothing offering limited protection against liquid chemicals);
- EN 1149-5:2008 (Protective clothing - Electrostatic properties) for electrostatic dissipative protective clothing with a surface resistance of $\leq 2.5 \times 10^9 \Omega$ on the inner surface of the garment.

In addition with two exceptions the PPE satisfied the requirements of EN 1073-2:2002 (Non-ventilated protective clothing against particulate radioactive contamination) with a performance classification of TIL Class 1.

The exceptions being that clause 4.2 specifies that the minimum puncture resistance should be level 2, but the fabric used has a puncture resistance classification of level 1. Also, Clause 4.2 requires Resistance to ignition, this has not been tested.

This certificate is issued on the strict condition that appropriate checks on manufactured PPE, as detailed in Article 19 (c) of the Regulation are implemented and maintained while the model is in production.

Certification is based on technical file reference: ProShield 60, model P6127S, April 2018

SGS Reference Number UK/CRS 237930
