## Product Innovations for Blood Collection Safety

**Comply with FDA, NIOSH, CDC, and OSHA Safety Recommendations for the Use of Capillary Tubes for Blood Collections**

### HEMATO-CLAD™ Mylar® Wrapped\* Hematocrit Tubes

**Standard 75 mm microhematocrit tubes wrapped with three layers of Mylar**

HEMATO-CLAD Hematocrit Tubes combine the precision of glass with the safety provided by a Mylar overwrap. Now, for the first time, you can give your laboratory staff enhanced safety with no compromise in accuracy. With HEMATO-CLAD Tubes the chance of contamination due to glass fragments or aerosols is greatly reduced. Accidental breakage is significantly reduced particularly when pressing the tube into sealing clay. In the event of breakage, the Mylar wrapping will help contain the sample (blood) and provides an added layer of protection against cuts from broken glass.

Catalog Number	Description	Package Size
1-000-7500-C/5	Plain (Blue)	200/Vial x 5
1-000-7500-HC/5	Heparin Coated (Red)	200/Vial x 5

\*Patent Number 5,173,266

### PLASTICRIT™ Plastic Hematocrit Tubes

**75 mm polycarbonate pipets with the capillarity of glass.**

PLASTICRIT Plastic Hematocrit Tubes provide the identical capillary action as glass hematocrit tubes. They eliminate the possibility of contamination due to breakage with no compromise in accuracy. These 75 mm polycarbonate pipets are available plain or heparinized.

Catalog Number	Description	Package Size
8-000-7520/5	Plain	1000/case
8-000-7520-H/5	Heparin Coated	1000/case
