## Description

- Rigid or semi-rigid tubing of different diameters can be accepted by using a blue GL 14 open topped cap with one of the inserts.
- Four different tubing diameters (1.6 mm, 3.0 mm, 3.2 mm or 6.0 mm tubing outer diameter) can be used by changing the GL 14 inserts.
- By applying positive or negative pressure liquid can be pumped out of or into the bottle via the screw cap.
- Fully compatible with all the GL 45 threads and therefore highly versatile
- Flexible modular GL 45 connection cap system that accepts four different rigid or semi-rigid tubing diameters (1.6 mm; 3.0 mm; 3.2 mm and 6.0 mm). The caps are available with 2 or 3 GL 14 threaded ports. The different sized inserts form a tight seal around the pass-through tubing. Sterile pressure equalisation is possible through use of 0.2 µm syringe filter. Unused ports can be sealed off with a red GL 14 screw cap.
- Material: PP, PTFE, Silicone
- Diameter 54 mm
- Thread GL 45
- Height 43.7 mm
- Autoclavable
