

TECHNICAL DATA SHEET

Part Number	098415
Description	Thermometer hygrometer 32000 memories with display

Benefits :

- ✓ Control and traceability of temperature and hygrometry with this ambient temperature recorder with LCD control screen and 32000 memories (16000 in temperature + 16000 in hygrometry). It comes with a support and a security padlock.
- ✓ With its software (in French and English), all you have to do is configure the recording conditions (measurement interval, recording duration, alarm thresholds) then install the device. Exceeding the alarm thresholds will be visually indicated by LED color change. Then reconnect the datalogger to your PC to retrieve your data in the form of a graph or spreadsheet in .txt or .xls format. The datalogger works with a 3.6V 171SI/PI lithium battery (delivered). (Warning: installation and use locally on your Windows PC. Not MAC compatible and does not work in a server session). Connect the recorder to the Wifi Bluetooth 200SI transmitter to remotely retrieve the data on your computer (optional).

- Temp: -40° to +70°C * Resol. 0.1°C * -Hygro.: 0 to 100% RH * RH from 40 to 60% RH, Display Temperature, hygrometry, Maxi and Mini - Intervals: 1 sec to 24 h - Alarms by diode -Waterproof IP54 - Delivered with base, fixings, padlock, USB cable and software (in English) - D: 94x48x33mm / 100g - Al. : 3.6V 171SI/PI lithium battery (supplied) / Autonomy 3 years
