

Amersham™ Protran 0.2 NC supported Western blotting membranes

Reinforced 0.2 µm protein blotting membrane for multiple reprobings.

DOMINIQUE DUTSCHER SAS

Overview

Reinforced 0.2 µm protein blotting membrane for multiple reprobings.

- Recommended for detection of small proteins and peptides (< Mr 20 000).
- Versatile, robust, and excellent signal-to-noise ratios.
- Optimal for applications when stripping and reprobing is required.

Robust support

Amersham Protran Supported offers excellent sensitivity, resolution, and low background, especially when used with Amersham ECL, Amersham ECL Prime, or Amersham ECL Select Western blotting systems. This robust support allows repeated stripping and reprobing.

Western blotting sandwiches

For convenience, Western blotting sandwiches (10 sandwiches/package) are available, consisting of precut Amersham Protran Supported 0.2 NC membranes preassembled with 2 x 3 mm Chr blotting papers.
Product 10600128: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
