

Amersham™ Protran 0.45 NC supported Western blotting membranes

Reinforced 0.45 µm protein blotting membrane for multiple reprobings.

DOMINIQUE DUTSCHER SAS

Overview

Reinforced 0.45 µm protein blotting membrane for multiple reprobings.

- High binding capacity.
- Versatile, robust and excellent signal-to-noise ratios.
- Optimal for applications when stripping and reprobing is required.
- Suitable for proteins of a wide range of molecular weights.

Robust support

Suitable for proteins of a wide range of molecular weights.

Western blotting sandwiches

For convenience, Western blotting sandwiches (10 sandwiches/package) are available, consisting of precut Amersham Protran Supported 0.45 NC membranes preassembled with 2 x 3 mm Chr blotting papers.
Product 10600067: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600036: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600127: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600082: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600052: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600083: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
Product 10600098: Discontinued. No new products will be manufactured after 30th September 2017. No alternative is available.
No overview available for this product.
