Screw neck tubes and culture media tubes

The screw neck tubes are made out of clear soda lime glass of the third hydrolytic class and can be printed with ceramic paint. If requested the screw neck tubes can be made of borosilicate glass of the first hydrolytic class. The screw neck tubes are packed in polypropylene trays with shrink film and NAFVSM labelling. In this leaflet you will find our standard dimensions. It is however also possible to produce tubes according to your specifications.

The quantities per pallet are our minimal order quantity per product.

Screw caps

Our standard screw neck tubes are produced with the screw thread Capalu 16. For this thread we have aluminium screw caps available. These caps contain a pharmaceutical rubber inlay and are suitable for autoclaving.

Screw thread	Material	Colour	Inlay	Quantity per box	Quantity per pallet	Article number
Capalu 16	Aluminium	Gold	Rubber	5.000	150.000	697.1640016000.4S010

GLASS PACKAGING

Test and blood tubes

The test and blood tubes are made out of clear soda lime glass of the third hydrolytic class. It is possible to make the tubes out of borosilicate glass of the first hydrolytic class on request. Test tubes can be produced with a round or a flat bottom. The tubes are standardly packed in cardboard boxes. It is optional to pack them in polypropylene trays (clean pack) and to print them. The boxes or trays are provided with NAFVSM labels.

In this leaflet you will find our standard dimensions. It is however also possible to produce tubes according to your specific requests.

The quantities per pallet are our minimal order quantity per product.
