

Power Supply Adapters

Overview

- Choose adapters for connecting 4 mm or 2 mm leads to 2 mm or 4 mm output jacks, respectively.
- This adapter is approved for 500 V relative protection ground.
- Use Adapter Set 2mm M/4mm F for connecting sheathed 2 mm male plug instrument leads to 4 mm sheathed output jacks.
- Use Adapter Set 4mm M/2mm F for connecting sheathed 4 mm male plug instrument leads to 2 mm high-voltage output jacks.

Product specifications

Power Supply Adapters, Adapter set 4mm M/2mm F (1 pair)

Catalog code	18112958
Safety Precautions	The power supply output must not exceed +/–500 V relative protection ground. This means a maximum setting of 1000 V in the case of an EPS power supply since its outputs are symmetric differential to protection earth and maximum setting of 500 V in the case of an Hoefer PS power supply since it has outputs connected to protection ground
Compliance	The product fulfills valid directives and standards when used within the conditions specified in the user manual. The product must also be used in the same state as it was delivered from Cytiva and connected only to other CE labeled Cytiva modules or other products as recommended. For regulatory details please see declaration of conformity.
Wetted Part	No

Power Supply Adapters, Adapter set 2mm M/4mm F (1/Pk)

Catalog code	18112959
Safety Precautions	The power supply output must not exceed ±500 V relative to protection ground. This means a maximum setting of 1000 V in case the power supply's outputs are symmetrical against protection ground, and a maximum setting of 500 V in case the power supply has outputs connected to protection ground
