

Flangeless Connectors

Overview

No overview available for this product.

Product specifications

Tubing connector TC-2 female-female

Catalog code	19004501
Chemical stability	For use with aqueous solutions and organic solvents commonly used in chromatography
For use with	Tubing o.d. 1.8 mm
Number of Ports	2
Operating pressure max.	10 bar (1 MPa) (145 psi)
Operating Temperature	4°C-60°C
pH Stability Long Term	1-14
Wetted Materials	Polypropylene (PP)
Wetted Part	Yes

Tubing Connector, TC-3, 3 × Female

Catalog code	19004701
Chemical stability	For use with aqueous solutions, methanol and ethanol. Not to be used with 1 M NaOH, 1 M mineral acids, strong organic acids, or phenol
For use with	Tubing o.d. 1.8 mm
Number of Ports	3
Operating pressure max.	3 bar (0.3 MPa) (45 psi)
Operating Temperature	4°C-60°C
pH Stability Long Term	2-10
Wetted Materials	Polypropylene (PP)
Wetted Part	Yes
