Safety data sheet according to 1907/2006/EC, Article 31

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1 Product identifier Trade name: Sodium hydroxide solution, 1 mol / I · Article number: 1340 · CAS Number: 1310-73-2 (Sodium hydroxide) • Registration number This product is a mixture. UK REACH registration numbers see section 3. · UFI: 38N0-M0NS-K00F-XNA0 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the mixture Laboratory chemicals Reagent for analysis Industrial use · 1.3 Details of the supplier of the safety data sheet Manufacturer/Supplier: Th. Geyer GmbH & Co. KG Dornierstr. 4 – 6 D-71272 Renningen Tel.: +49(0)7159-1637-0, Fax:+49 (0)7159/18417 www.thgeyer.de sicherheitsdatenblaetter@thgeyer.de · Further information obtainable from: Product management department · 1.4 Emergency telephone number: National Poisons Information Service City Hospital Dudley Road Birmingham B18 7QH Tel.:Emergency: (00 44) 87 06 00 62 66 Members of the public seeking specific information on poisons should contact: In England and Wales: NHS 111 - dial 111 In Scotland: NHS 24 - dial 111 **SECTION 2: Hazards identification**

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

GHS05 corrosion

Met. Corr.1H290 May be corrosive to metals.Skin Corr. 1AH314 Causes severe skin burns and eye damage.Eye Dam. 1H318 Causes serious eye damage.

· 2.2 Label elements

· Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the GB CLP regulation.

(Contd. on page 2)

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

Trade name: Sodium hydroxide solution, 1 mol / I

H290 May be	e corrosive to metals.	
	s severe skin burns and eye damage.	
	ry statements	
P280	Wear protective gloves/protective clothing/eye protection/face protection.	
P301+P330+	P331 IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.	
P303+P361+	P353 IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water	ər
	[or shower].	
P305+P351+	P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if	
	present and easy to do. Continue rinsing.	
P310	Immediately call a POISON CENTER/doctor.	
P501	Dispose of contents/container in accordance with local/regional/national/international	
	regulations.	
2.3 Other ha		
	BT and vPvB assessment	
PBT: Not app		
vPvB: Not ap	oplicable.	

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

· Description: Mixture of substances listed below with nonhazardous additions.

· Dangerous components:

CAS: 1310-73-2	Sodium hydroxide	2.5-<5%
EINECS: 215-185-5	Met. Corr.1, H290; Skin Corr. 1A, H314	
Reg.nr.: 01-2119457892-27-XXXX	Specific concentration limits: Skin Corr. 1A; H314: $C \ge 5$ %	
C C C C C C C C C C C C C C C C C C C	Skin Corr. 1B; H314: 2 % ≤ C < 5	
	%	
	Skin Irrit. 2; H315: 0.5 % ≤ C < 2 %	
	Eye Irrit. 2; H319: 0.5 % ≤ C < 2 %	

Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

· 4.1 Description of first aid measures

· General information:

First aider needs to protect himself.

Immediately remove any clothing soiled by the product.

• After inhalation:

Remove person from danger area.

Supply fresh air.

Seek medical treatment in case of complaints.

• After skin contact:

Flush contaminated skijn with soap and plenty of water.

After prolonged contact or any signs of skin changes (redness or other signs of inflammation) seek medical attention.

(Contd. on page 3)

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

Trade name: Sodium hydroxide solution, 1 mol / I

After eye contact:	(Contd. of page 2
Protect unharmed eye.	
Rinse opened eye for several minutes under running water. Then consult a doc	tor.
Remove contact lenses	
Continue rinsing.	
After swallowing:	
Rinse out mouth and then drink plenty of water.	
Do not induce vomiting (risk of perforation). Call a doctor immediately.	
Information for doctor: Please observe safety data sheet/label.	
4.2 Most important symptoms and effects, both acute and delayed	
Nausea	
Gastric or intestinal disorders	
Cramp	
4.3 Indication of any immediate medical attention and special treatment n	eeded Symptomatic treatment.
SECTION 5: Firefighting measures	
5.1 Extinguishing media	
Suitable extinguishing agents: Use fire extinguishing methods suitable to suitable optimized agents. Water with full it	rrounding conditions.
For safety reasons unsuitable extinguishing agents: Water with full jet. 5.2 Special hazards arising from the substance or mixture	
Formation of toxic gases is possible during heating or in case of fire.	
Under certain fire conditions, traces of other toxic gases cannot be excluded.	
5.3 Advice for firefighters	
Protective equipment:	
Wear self-contained respiratory protective device.	
Do not inhale explosion gases or combustion gases.	
Additional information Dispose of fire debris and contaminated fire fighting water in accordance with o	fficial regulations
Prevent fire extinguishing water from contaminating surface water or the ground	
SECTION 6: Accidental release measures	
6.1 Personal precautions, protective equipment and emergency procedur	es
Avoid contact with eyes and skin. Ensure adequate ventilation.	
Particular danger of slipping on leaked/spilled product.	
Use respiratory protective device against the effects of fumes/dust/aerosol.	
Wear protective equipment. Keep unprotected persons away.	
6.2 Environmental precautions:	
Dilute with plenty of water.	
Do not allow to enter sewers/surface or ground water.	
6.3 Methods and material for containment and cleaning up: Cover drains.	
Absorb with liquid-binding material (sand, diatomite, acid binders, universal bind	ders sawdust)
Use neutralising agent.	, ourrady.
Dispose contaminated material as waste according to section 13.	
Ensure adequate ventilation.	
Dispose of the material collected according to regulations.	
6.4 Reference to other sections	
See Section 7 for information on safe handling.	

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

Trade name: Sodium hydroxide solution, 1 mol / I

(Contd. of page 3)

SECTION 7: Handling and storage

· 7.1 Precautions for safe handling

Apply the general protection and hygiene measures for the handling with chemicals.

Store in cool, dry place in tightly closed receptacles.

Ensure good ventilation/exhaustion at the workplace.

- Prevent formation of aerosols.
- · Information about fire and explosion protection:

Substance itself does not burn, tuning measures to environment

• 7.2 Conditions for safe storage, including any incompatibilities

· Storage:

· Requirements to be met by storerooms and receptacles: Store only in the original receptacle.

· Information about storage in one common storage facility: Store away from metals.

· Further information about storage conditions:

Protect from humidity and water.

Store in dry conditions.

Keep container tightly sealed.

Storage class: 8 B

· 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

· Ingredients with limit values that require monitoring at the workplace:

CAS: 1310-73-2 Sodium hydroxide

WEL Short-term value: 2 mg/m³

• Additional information: The lists valid during the making were used as basis.

- · 8.2 Exposure controls
- Appropriate engineering controls No further data; see section 7.
- Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing Wash hands before breaks and at the end of work. Avoid contact with the eyes and skin.

Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device. If air-purifying respiratory protection is required according to the risk assessment, wear a respirator with full-face mask with combination filter (US) or with filter type ABEK (EN 14387) filter cartridge. If the respirator is the only protective measure, an ambient air self-contained breathing apparatus with afull face mask must be worn. Respirators and components must be approved to appropriate government standards (for example, NIOSH (US) or CEN (EU)).Translated with www.DeepL.com/Translator (free version)

Hand protection

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Safety data sheet according to 1907/2006/EC, Article 31

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

Trade name: Sodium hydroxide solution, 1 mol / I

NBR: acrylonitrile-butadiene rubber Material thickness > 0.11 mm

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

level 6 for application > 480 min

· Eye/face protection

Tightly sealed goggles

· Body protection:

Protective work clothing (e. g. safety shoes EN ISO 20345, long-sleeved protective working garments).

SECTION 9: Physical and chemical proper	rties
• 9.1 Information on basic physical and chemical pro	operties
General Information	
· Physical state	Fluid
· Colour:	Colourless
· Odour:	Odourless
· Melting point/freezing point:	0°0
Boiling point or initial boiling point and boiling	
range	Undetermined.
· Flammability	Not applicable.
· Lower and upper explosion limit	
· Lower:	Not determined.
· Upper:	Not determined.
· Flash point:	Not applicable.
Decomposition temperature:	Not determined.
· pH at 20 °C	>12
· Viscosity:	
· Kinematic viscosity	Not determined.
· Dynamic at 20 °C:	0.952 mPas
· Solubility	
· water:	Fully miscible.
 Partition coefficient n-octanol/water (log value) 	Not determined.
· Vapour pressure at 20 °C:	23 hPa
Density and/or relative density	
· Density at 20 °C:	~1.04 g/cm³
•	Not determined.
· Relative density	Not determined.
· Vapour density	Not determined.
• 9.2 Other information	
· Appearance:	
· Form:	Fluid
· Important information on protection of health and	
environment, and on safety.	
· Ignition temperature:	Product is not selfigniting.
• Explosive properties:	Product does not present an explosion hazard.
· · ·	(Contd. on page 6)

Self-heating substances and mixtures	Void	
Substances and mixtures, which emit flamma	able	
gases in contact with water	Void	
Oxidising liquids	Void	
Oxidising solids	Void	
Organic peroxides	Void	
Corrosive to metals	May be corrosive to metals.	
Desensitised explosives	Void	

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- · 10.2 Chemical stability Stable with proper storage and handling.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- 10.3 Possibility of hazardous reactions Reacts with certain metals.

10.4 Conditions to avoid

Heat, flames and sparks

Protect from humidity.

• 10.5 Incompatible materials: Avoid contact with other chemicals.

10.6 Hazardous decomposition products: On fire: see chapter 5

SECTION 11: Toxicological information

 \cdot 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

· Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:

ATE (Acute Toxicity Estimates)

Oral LD50 >40,000-80,000 mg/kg (rat)

- Skin corrosion/irritation Causes severe skin burns and eye damage.
- · Serious eye damage/irritation Causes serious eye damage.
- · Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- · Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- STOT-single exposure Based on available data, the classification criteria are not met.

(Contd. on page 7)

- 6

(Contd. of page 6)

Safety data sheet according to 1907/2006/EC, Article 31

revised on: 08.05.2023

Version number 10 (replaces version 9)

Creation Date: 06.01.2016

Trade name: Sodium hydroxide solution, 1 mol / I

- · STOT-repeated exposure Based on available data, the classification criteria are not met.
- Aspiration hazard Based on available data, the classification criteria are not met.

· 11.2 Information on other hazards

Endocrine disrupting properties

None of the ingredients is listed.

SECTION 12: Ecological information

· 12.1 Toxicity

- · Aquatic toxicity: No further relevant information available.
- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- vPvB: Not applicable.
- 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

- 12.7 Other adverse effects
- Additional ecological information:
- · General notes:

Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous. Must not reach sewage water or drainage ditch undiluted or unneutralised.

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water

Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

Observe local (country-specific) regulations and laws

This material and its container must be disposed of as hazardous waste. Dispose of contents/container in accordance with local/regional/national/international regulations.

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system. Chemicals must be disposed of in compliance with the respective national regulations.

· European	· European waste catalogue	
06 00 00	06 00 00 WASTES FROM INORGANIC CHEMICAL PROCESSES	
06 02 00	wastes from the MFSU of bases	
06 02 04*	sodium and potassium hydroxide	
HP4	Irritant - skin irritation and eye damage	

· Uncleaned packaging:

- · Recommendation: Disposal must be made according to official regulations.
- Recommended cleansing agents: Water, if necessary together with cleansing agents.

SECTION 15: Regulatory information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Inventory of Hazardous Chemicals

CAS: 1310-73-2 Sodium hydroxide

· Directive 2012/18/EU

- · Named dangerous substances ANNEX I None of the ingredients is listed.
- · Seveso category not assigned
- REGULATION (EC) No 1907/2006 ANNEX XVII Conditions of restriction: 3
- DIRECTIVE 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment Annex II
- None of the ingredients is listed.

· REGULATION (EU) 2019/1148

• Annex I - RESTRICTED EXPLOSIVES PRECURSORS (Upper limit value for the purpose of licensing under Article 5(3))

None of the ingredients is listed.

Annex II - REPORTABLE EXPLOSIVES PRECURSORS

None of the ingredients is listed.

· Regulation (EC) No 273/2004 on drug precursors

None of the ingredients is listed.

Regulation (EC) No 111/2005 laying down rules for the monitoring of trade between the Community and third countries in drug precursors

None of the ingredients is listed.

National regulations:

· Information about limitation of use:

Employment restrictions concerning juveniles must be observed.

Employment restrictions concerning pregnant and lactating women must be observed.

· 15.2 Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

SECTION 16: Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship. Application, use and handling of our products take place out of our control and are solely your responsibility.

Relevant phrases

H290 May be corrosive to metals.

H314 Causes severe skin burns and eye damage.
