Safety data sheet according to 1907/2006/EC, Article 31

revised on: 27.07.2023

Version number 9 (replaces version 8)

Creation Date: 25.07.2016

SECTION 1: Identification of the substance/mixture and of the company/undertaking 1.1 Product identifier · Trade name: Sodium thiosulphate solution · Article number: 1312, 1356, 1369, 1371, 1387 · CAS Number: -· EINECS Number: -· Index number: -• Registration number This product is a mixture. For relevant UK REACH registration numbers see section 3. · 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the mixture Chemical analytics Laboratory chemicals Commercial use 1.3 Details of the supplier of the safety data sheet · Manufacturer/Supplier: Th. Geyer GmbH & Co. KG Dornierstr. 4 – 6 D-71272 Renningen Tel.: +49(0)7159-1637-0, Fax:+49 (0)7159/18417 www.thgeyer.de sicherheitsdatenblaetter@thgeyer.de · Further information obtainable from: Product management department · 1.4 Emergency telephone number: National Poisons Information Service City Hospital **Dudlev Road** Birmingham B18 7QH Tel.: Emergency: (00 44) 87 06 00 62 66 Members of the public seeking specific information on poisons should contact: In England and Wales: NHS 111 - dial 111 In Scotland: NHS 24 - dial 111

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture
 Classification according to Regulation (EC) No 1272/2008

The product is not classified according to the GB CLP (1272/2008) regulation.

· 2.2 Label elements

- · Labelling according to Regulation (EC) No 1272/2008 Void
- · Hazard pictograms Void
- · Signal word Void
- · Hazard statements Void
- · 2.3 Other hazards
- Results of PBT and vPvB assessment
- **PBT:** Not applicable.

(Contd. on page 2)

revised on: 27.07.2023

Version number 9 (replaces version 8)

Creation Date: 25.07.2016

Trade name: Sodium thiosulphate solution

• **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

- · Description: Mixture of substances listed below with nonhazardous additions.
- · Dangerous components: Void
- · Additional information: For the wording of the listed hazard phrases refer to section 16.

SECTION 4: First aid measures

- 4.1 Description of first aid measures
 General information: First aider needs to protect himself. Immediately remove any clothing soiled by the product.
 • After inhalation: Supply fresh air.
- After skin contact: Wash off with soap and water.
- Consult a doctor if symptoms persist.
- After eye contact: Rinse out opened eye for several minutes under running water. Remove any contact lenses if possible. Continue rinsing.
- After swallowing: Rinse out mouth and then drink plenty of water. If symptoms persist consult doctor.
- · Information for doctor: Please observe safety data sheet/label.
- \cdot 4.2 Most important symptoms and effects, both acute and delayed

No further relevant information available.

· 4.3 Indication of any immediate medical attention and special treatment needed Symptomatic treatment.

SECTION 5: Firefighting measures

- · 5.1 Extinguishing media
- Suitable extinguishing agents:
 Use fire extinguishing methods suitable to surrounding conditions.
 Use certain diavide, extinguishing neuroper extensions are clocked received.
- Use carbon dioxide, extinguishing powder, water spray or alcohol-resistant foam.
- \cdot For safety reasons unsuitable extinguishing agents: Water with full jet.
- \cdot 5.2 Special hazards arising from the substance or mixture

Formation of hazardous vapours possible due to ambient fire. Non-flammable.

- 5.3 Advice for firefighters
- Protective equipment:

Wear self-contained respiratory protective device.

Do not inhale explosion gases or combustion gases.

Additional information
 Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.
 Safely prevent extinguishing water from entering groundwater or surface water.

SECTION 6: Accidental release measures

• 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.

(Contd. on page 3)

- E

(Contd. of page 1)

revised on: 27.07.2023

Version number 9 (replaces version 8)

Creation Date: 25.07.2016

Trade name: Sodium thiosulphate solution

Particular danger of slipping on leaked/spilled product. · 6.2 Environmental precautions: Do not allow to enter sewers/surface or ground water. · 6.3 Methods and material for containment and cleaning up: Cover the sewerage system. Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose of the material collected according to regulations. · 6.4 Reference to other sections See Section 7 for information on safe handling. See Section 8 for information on personal protection equipment. See Section 13 for disposal information. **SECTION 7: Handling and storage** 7.1 Precautions for safe handling Apply the general protective and hygienic measures when handling chemicals. No special measures required. · Information about fire - and explosion protection: Substance itself does not burn, adapt extinguishing measures to surroundings

- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage:
- · Requirements to be met by storerooms and receptacles: Store only in the original receptacle.
- Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions:

Protect from heat and direct sunlight. Store in cool, dry conditions in well sealed receptacles.

- Storage class: 12
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

- · 8.1 Control parameters
- · Ingredients with limit values that require monitoring at the workplace:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

- Additional information: The lists valid during the making were used as basis.
- · 8.2 Exposure controls
- · Appropriate engineering controls No further data; see section 7.
- \cdot Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures:
- The usual precautionary measures are to be adhered to when handling chemicals.
- · Respiratory protection: Not required.
- Hand protection

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

- **10.2 Chemical stability** Stable when stored and handled properly.
- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.
- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- **10.4 Conditions to avoid** No further relevant information available.
- · 10.5 Incompatible materials: Avoid contact with other chemicals.
- · 10.6 Hazardous decomposition products: In case of fire: see section 5.

SECTION 11: Toxicological information

- · 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008
- · Acute toxicity Based on available data, the classification criteria are not met.
- Skin corrosion/irritation Based on available data, the classification criteria are not met.
- Serious eye damage/irritation Based on available data, the classification criteria are not met.
- Respiratory or skin sensitisation Based on available data, the classification criteria are not met.
- Germ cell mutagenicity Based on available data, the classification criteria are not met.
- Carcinogenicity Based on available data, the classification criteria are not met.
- Reproductive toxicity Based on available data, the classification criteria are not met.
- · STOT-single exposure Based on available data, the classification criteria are not met.
- · STOT-repeated exposure Based on available data, the classification criteria are not met.
- · Aspiration hazard Based on available data, the classification criteria are not met.

\cdot 11.2 Information on other hazards

Endocrine disrupting properties

None of the ingredients is listed.

SECTION 12: Ecological information

· 12.1 Toxicity

- · Aquatic toxicity: No further relevant information available.
- · 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- · 12.5 Results of PBT and vPvB assessment
- · PBT: Not applicable.
- · vPvB: Not applicable.
- · 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

- 12.7 Other adverse effects
- · Additional ecological information:
- · General notes:

Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods Observe local (country-specific) regulations and laws.

- · Recommendation Chemicals must be disposed of in accordance with the respective national regulations.
- · Uncleaned packaging:
- · Recommendation: Disposal must be made according to official regulations.
- · Recommended cleansing agents: Water, if necessary together with cleansing agents.
