Product Safety and Regulatory Statement

Essity Professional Hygiene can confirm that our cleaning cloth products are intended to be used in the field of food processing and packaging and intended to come into direct contact with foodstuffs. Furthermore they are used as wipers in the food preparation and processing sector.

The site Essity Operations Suameer BV produces amongst others Tork Cleaning Cloth, Tork Long Lasting Cleaning cloth, Tork Industrial Cleaning cloth, Tork Heavy Duty Cleaning Cloth and Tork Industrial Heavy Duty Cleaning Cloth. The production of the substrate as well as the converting in folded wipes and perforated rolls takes place in a controlled way.

The site is certified according ISO 9001:2015 and ISO 14001:2015

Essity cloths and wiper products are manufactured in compliance with the relevant and actual valid regulations. The products are in compliance with Regulation (EC) No 1935/2004 on materials and articles intended to come into contact with food and manufactured in accordance with Regulation (EC) 2023/2006 Good Manufacturing Practice (GMP) applicable to all Food Contact Materials. All added ingredients/ chemicals are chosen after careful evaluation. They are internally assessed to ensure that they are safe for use and are in compliance with the EU regulation REACH and with the German BfR Recommendation XXXVI.

Essity Suameer does not add any Nanomaterials, Silicone Dioxide, Phthalates and BPA to the material. The Polyester shortcut fibre we use contains Titandioxid, but do not exceed the legal limits according to European regulation (EC) 10/2011 for plastic materials.
