Lab Water

Data Sheet

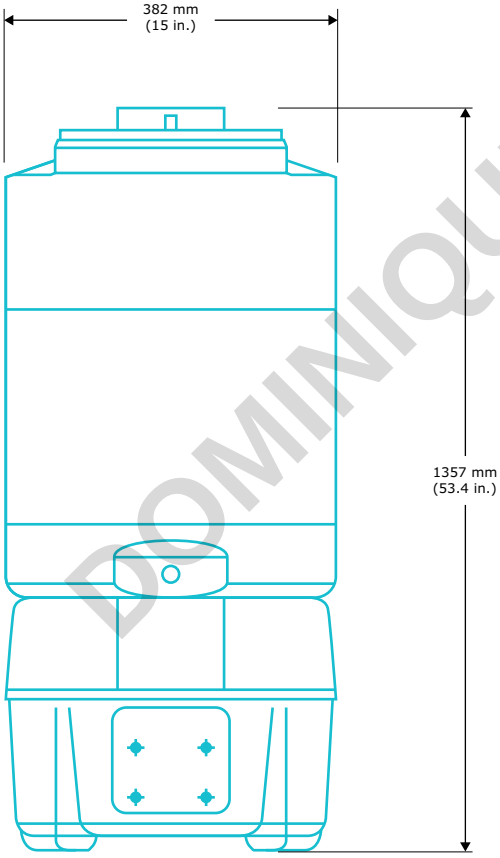

100 Liter Polyethylene Tank

(Cat. No. TANKPE0100)

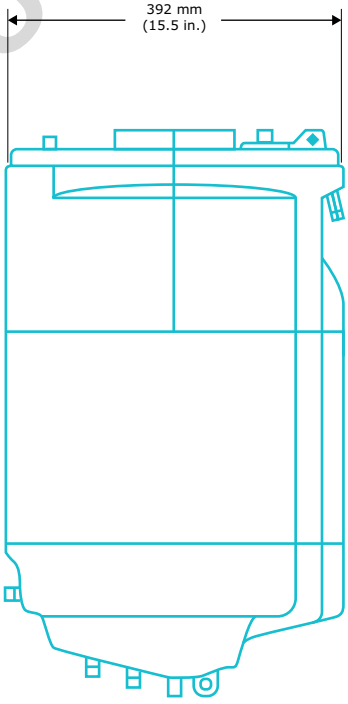

General Description

Conical bottom blow-molded polyethylene reservoir stores 100 L (26 gal) of purified water with an optional distribution pump to deliver water to multiple-use locations. System includes a sanitary overflow valve and vent filtration options to preserve water quality. An optional UV Automatic Sanitization Module (ASM) installed in the top cover of the reservoir will inhibit bacteria growth and bio-film formation on the inner walls of the reservoir.
