Full text of H-phrases in Section 16

*Included in the Candidate List of Substances of Very High Concern (SVHC) according to Regulation (EC) No. 1907/2006 (REACH)

Components with Occupational Exposure Limits: Glycerol (CAS: 56-81-5): <50% SEE SECTION 8

SECTION 4: First Aid measures

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture Not applicable.

according to: 1907/2006 z- REACH and 2015/830

smART (200 U/µl)

Version EN : 2.0

Issue: 13.10.2019

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13.

Personal precautions – see section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: Glycerol (CAS: 56-81-5): <50%

	Limit value - Eight hours		Limit value - Short term	
Country	ppm	mg/m³	ppm	mg/m³
Australia	-	10 (1)	-	mg/m³
Belgium	-	10	-	-
Canada - Ontario	-	10	-	-

Remarks	
Australia	(1) This value is for inhalable dust containing no asbestos and < 1% crystalline silica.
Germany (AGS)	1) Inhalable fraction (2) 15 minutes average value
Germany (DFG)	1) Inhalable fraction (2) 15 minutes average value
New Zealand	1) The value for inhalable dust containing no asbestos and less than 1% free silica.

8.2. Exposure controls

Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable.

Environmental exposure controls:

Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

according to: 1907/2006 z- REACH and 2015/830

smART (200 U/µl)

Version EN : 2.0

Issue: 13.10.2019

Appearance	Liquid
Colour	Not applicable
Odour	Not applicable
Odour threshold	Not applicable
рН	Not applicable
Melting point/freezing point	Not applicable
Initial boiling point and boiling range	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative density	App. 1g/cm ³
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature	Not applicable
Solubility(ies)	Not applicable
Decomposition temperature	Not applicable
Viscosity;	Not applicable
Explosive properties	Not applicable
Oxidising properties	Not applicable

9.2. Other information

None.

SECTION 10: Stability and reactivity

10.1. Reactivity None.
10.2. Chemical stability Under normal circumstances the product is stable.
10.3. Possibility of hazardous reactions None.
10.4. Conditions to avoid Direct sunlight, hot surfaces and open flames.
10.5. Incompatible materials Strong oxidizing agents.

according to: 1907/2006 z- REACH and 2015/830

smART (200 U/µl)

Version EN : 2.0

Issue: 13.10.2019

10.6. Hazardous decomposition products

Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

(a) acute toxicity: Based on the available data, the classification criteria are not met

- (b) skin corrosion/irritation: Based on the available data, the classification criteria are not met
- (c) serious eye damage/irritation: Based on the available data, the classification criteria are not met
- (d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met
- (e) germ cell mutagenicity: Based on the available data, the classification criteria are not met
- (f) carcinogenicity: Based on the available data, the classification criteria are not met
- (g) reproductive toxicity: Based on the available data, the classification criteria are not met (h) STOT-single exposure: Based on the available data, the classification criteria are not met
- (i) STOT-repeated exposure: Based on the available data, the classification criteria are not met
- (i) aspiration hazard: Based on the available data, the classification criteria are not met

Quantitative data on the toxicological effect of this product are not available.

Ingredient name		C		Route of administration
Triton-X100*	LD50	2000 mg/kg	Rattus sp.	oral
	LD50	3000 mg/kg	Oryctolagus sp.	skin

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as dangerous to the environment. **12.2. Persistence and degradability** No data available. **12.3. Bioaccumulative potential** No data available. **12.4. Mobility in soil** No data available. **12.5. Results of PBT and vPvB assessment** The product contains no substance meet the criteria for PBT or vPvB. **12.6. Other adverse effects** Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use.

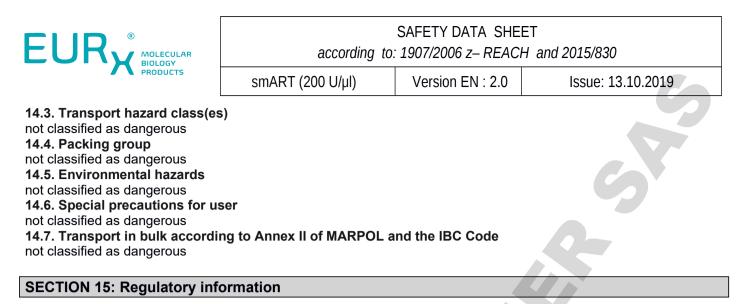

Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU REGULATIONS:

- Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- 3. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).
- 4. Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

15.2. Chemical safety assessment

No chemical safety assessments for the mixture.

SECTION 16: Other information

Abbreviations and acronyms, list of relevant hazard statements used in the safety data sheet:

H302 - Harmful if swallowed

H318 – Causes serious eye damage

H411 – Toxic to aquatic life with long-lasting effects

Eye Dam 1 – Serious eye damage

Acute Tox. 4 – Acute toxicity cat. 4

Aquatic Chronic 2 – Hazardous to the aquatic environment cat. 2

LD50 – amount of a toxic agent that is sufficient to kill 50 percent of a population

of animals usually within a certain time

PBT – Persistent, Bioaccumulative and Toxic

vPvB – very Persistent and very Bioaccumulative

ADR – International Carriage of Dangerous Goods by Road

RID – International Carriage of Dangerous Goods by Rail

IMDG – International Maritime Dangerous Goods

ICAO – Safe Transport of Dangerous Goods by Air

Method of classification: Product is not classified as dangerous.

Training: Not required.

Key literature: Annex to Regulation (EU) 2015/830.

SECTION 1: Identification of the substance/mixture and of the company/undertaking
1.1. Product identifier smART RT-qPCR kit- 5 x cDNA Buffer
Catalogue number: E0806-01 E0806-02
1.2. Relevant identified uses of the substance or mixture and uses advised againstIdentified uses:laboratory reagents, scientific research purposesUses advised against:not specified
1.3. Details of the supplier of the safety data sheet Producer: EURxSp.zo.o 80-297Gdańsk ul. Przyrodnikow 3 Poland
E-mail address of the person responsible for data sheet: eurx@eurx.com.pl
1.4. Emergency telephone number 112 (Emergency telephone)
SECTION 2: Hazards identification
2.1. Classification of the substance or mixture According to Reg. 1272/2008 Product is not classified as dangerous.
Human health dangers: None. Environmental hazards: None. Physic-chemical hazards: None.
2.2. Label elements Pictograms: None Signal Word: None Hazard Statement (H): None. Precautionary Statement (P):
None.
EUH210 Safety data sheet available on request.
2.3. Other hazards The product contains no substance meet the criteria for PBT or vPvB.
SECTION 3: Composition/information on ingredients
3.1. Substances Not applicable.
3.2. Mixtures Hazardous components:

according to: 1907/2006 z- REACH and 2015/830

smART RT-qPCR kit- 5 x cDNA Buffer

Version EN : 2.0

Issue: 13.10.2019

SECTION 4: First Aid measures

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim. Treatment: Treat symptomatically.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

SECTION 7: Handling and storage

according to: 1907/2006 z- REACH and 2015/830

smART RT-qPCR kit- 5 x cDNA Buffer

Version EN : 2.0

Issue: 13.10.2019

7.1. Precautions for safe handling

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight. Storage class (TRGS 510): Combustible liquids

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: none

8.2. Exposure controls

Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable.

Environmental exposure controls:

Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 4: First Aid measures

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

according to: 1907/2006 z- REACH and 2015/830

0.1 M DTT Version EN : 2.0 Issue: 13.10.2019

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: none

8.2. Exposure controls

Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards: Not applicable. Environmental exposure controls:

according to: 1907/2006 z- REACH and 2015/830

0.1 M DTT

Version EN : 2.0

Issue: 13.10.2019

Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Not applicable
Odour	Not applicable
Odour threshold	Not applicable
рН	Not applicable
Melting point/freezing point	Not applicable
Initial boiling point and boiling range	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative density	App. 1g/cm ³
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature	Not applicable
Solubility(ies)	Not applicable
Decomposition temperature	Not applicable
Viscosity;	Not applicable
Explosive properties	Not applicable
Oxidising properties	Not applicable

9.2. Other information

None.

SECTION 10: Stability and reactivity

10.1. Reactivity
None.
10.2. Chemical stability
Under normal circumstances the product is stable.
10.3. Possibility of hazardous reactions

according to: 1907/2006 z– REACH and 2015/830

0.1 M DTT Version EN : 2.0

Issue: 13.10.2019

None.

10.4. Conditions to avoid

Direct sunlight, hot surfaces and open flames.

10.5. Incompatible materials

Strong oxidizing agents.

10.6. Hazardous decomposition products

Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

(a) acute toxicity: Based on the available data, the classification criteria are not met

- (b) skin corrosion/irritation: Based on the available data, the classification criteria are not met
- (c) serious eye damage/irritation: Based on the available data, the classification criteria are not met
- (d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met
- (e) germ cell mutagenicity: Based on the available data, the classification criteria are not met
- (f) carcinogenicity: Based on the available data, the classification criteria are not met
- (g) reproductive toxicity: Based on the available data, the classification criteria are not met
- (h) STOT-single exposure: Based on the available data, the classification criteria are not met
- (i) STOT-repeated exposure: Based on the available data, the classification criteria are not met
- (j) aspiration hazard: Based on the available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as dangerous to the environment. **12.2. Persistence and degradability** No data available. **12.3. Bioaccumulative potential** No data available. **12.4. Mobility in soil** No data available. **12.5. Results of PBT and vPvB assessment** The product contains no substance meet the criteria for PBT or vPvB. **12.6. Other adverse effects** Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use. Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous 14.3. Transport hazard class(es) not classified as dangerous 14.4. Packing group not classified as dangerous

according to: 1907/2006 z- REACH and 2015/830

0.1 M DTT Version EN : 2.0 Issue: 13.10.2019

14.5. Environmental hazards not classified as dangerous 14.6. Special precautions for user not classified as dangerous 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code not classified as dangerous SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU REGULATIONS:

- Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- 3. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).
- 4. Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

15.2. Chemical safety assessment

No chemical safety assessments for the mixture.

SECTION 16: Other information

Abbreviations and acronyms, list of relevant hazard statements used in the safety data sheet:

H302 – Harmful if swallowed

H315 - Causes skin irritation

H319 – Causes serious eye irritation

H412 – Harmful to aquatic life with long lasting effects

Skin Irrit. 2 - Skin irritation cat. 2

Eye Irrit. 2 – Eye irritation cat. 2

Acute Tox. 4 - Acute toxicity cat. 4

Aquatic Chronic 3 - Hazardous to the aquatic environment cat. 3

LD50 – amount of a toxic agent that is sufficient to kill 50 percent of a population

of animals usually within a certain time

PBT - Persistent, Bioaccumulative and Toxic

vPvB - very Persistent and very Bioaccumulative

ADR – International Carriage of Dangerous Goods by Road

RID – International Carriage of Dangerous Goods by Rail

IMDG – International Maritime Dangerous Goods

ICAO – Safe Transport of Dangerous Goods by Air

<u>Method of classification:</u> Product is not classified as dangerous.

Training: Not required.

SECTION 4: First Aid measures

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

SECTION 7: Handling and storage

according to: 1907/2006 z- REACH and 2015/830

 $Oligo(dT)_{20}(50 \mu M)$

Version EN : 2.0

Issue: 13.10.2019

7.1. Precautions for safe handling

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: none 8.2. Exposure controls Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other: Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable.

Environmental exposure controls:

Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 10: Stability and reactivity

10.1. Reactivity None. 10.2. Chemical stability Under normal circumstances the product is stable. 10.3. Possibility of hazardous reactions None. 10.4. Conditions to avoid Direct sunlight, hot surfaces and open flames. 10.5. Incompatible materials Strong oxidizing agents. 10.6. Hazardous decomposition products Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

according to: 1907/2006 z- REACH and 2015/830

Random hexamers (200ng/µl)

Version EN : 2.0

Issue: 13.10.2019

(a) acute toxicity: Based on the available data, the classification criteria are not met

(b) skin corrosion/irritation: Based on the available data, the classification criteria are not met

(c) serious eye damage/irritation: Based on the available data, the classification criteria are not met

(d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met

(e) germ cell mutagenicity: Based on the available data, the classification criteria are not met

(f) carcinogenicity: Based on the available data, the classification criteria are not met

(g) reproductive toxicity: Based on the available data, the classification criteria are not met

(h) STOT-single exposure: Based on the available data, the classification criteria are not met

(i) STOT-repeated exposure: Based on the available data, the classification criteria are not met

(j) aspiration hazard: Based on the available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as dangerous to the environment. **12.2. Persistence and degradability** No data available. **12.3. Bioaccumulative potential** No data available. **12.4. Mobility in soil** No data available. **12.5. Results of PBT and vPvB assessment** The product contains no substance meet the criteria for PBT or vPvB. **12.6. Other adverse effects** Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use. Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous 14.3. Transport hazard class(es) not classified as dangerous 14.4. Packing group not classified as dangerous 14.5. Environmental hazards not classified as dangerous 14.6. Special precautions for user not classified as dangerous 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code not classified as dangerous

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

according to: 1907/2006 z- REACH and 2015/830

Random hexamers (200ng/µl)

Version EN : 2.0

Issue: 13.10.2019

EU REGULATIONS:

- Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- 3. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).
- 4. Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

15.2. Chemical safety assessment

No chemical safety assessments for the mixture.

SECTION 16: Other information

Abbreviations and acronyms, list of relevant hazard statements used in the safety data sheet:

PBT – Persistent, Bioaccumulative and Toxic

vPvB – very Persistent and very Bioaccumulative

ADR – International Carriage of Dangerous Goods by Road

RID – International Carriage of Dangerous Goods by Rail

IMDG – International Maritime Dangerous Goods

ICAO – Safe Transport of Dangerous Goods by Air

Method of classification: Product is not classified as dangerous.

Training: Not required.

Key literature:

Annex to Regulation (EU) 2015/830. Current legislation (Section 15). Information Agency for Chemical Substances.

The information in this MSDS is based on the present state of our knowledge and on current laws. The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps to fulfil the demands set out in the local rules and legislation. The information in this MSDS is meant to be a description of the safety requirements for our product. It is not to be considered a guarantee of the product's properties.

according to: 1907/2006 z- REACH and 2015/830

10 mM Ultrapure dNTPs mix

Version EN : 2.0

Issue: 13.10.2019

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier 10 mM Ultrapure dNTPs mix

Catalogue number

1.2. Relevant identified uses of the substance or mixture and uses advised against
laboratory reagents, scientific research purposes
not specifiedUses advised against:not specified

1.3. Details of the supplier of the safety data sheet Producer: EURxSp.zo.o 80-297Gdańsk ul. Przyrodnikow 3 Poland

E-mail address of the person responsible for data sheet: eurx@eurx.com.pl

1.4. Emergency telephone number 112 (Emergency telephone)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

<u>According to Reg. 1272/2008</u> Product is not classified as dangerous.

Human health dangers: None. Environmental hazards: None. Physic-chemical hazards: None.

2.2. Label elements Pictograms: None Signal Word: None Hazard Statement (H): None. Precautionary Statement (P): None.

2.3. Other hazards The product contains no substance meet the criteria for PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.1. Substances Not applicable.

3.2. Mixtures Hazardous components: none

SECTION 4: First Aid measures

according to: 1907/2006 z- REACH and 2015/830

Version EN: 2.0

10 mM Ultrapure dNTPs mix

Issue: 13.10.2019

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

according to: 1907/2006 z- REACH and 2015/830

10 mM Ultrapure dNTPs mix Version EN : 2.0 Issue: 13.10.2019

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: none **8.2. Exposure controls** Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable. Environmental exposure controls: Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Not applicable
Odour	Not applicable
Odour threshold	Not applicable
рН	Not applicable

according to: 1907/2006 z- REACH and 2015/830

10 mM Ultrapure dNTPs mix

Version EN : 2.0

Issue: 13.10.2019

Melting point/freezing point	Not applicable
Initial boiling point and boiling range	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative density	App. 1g/cm ³
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature	Not applicable
Solubility(ies)	Not applicable
Decomposition temperature	Not applicable
Viscosity;	Not applicable
Explosive properties	Not applicable
Oxidising properties	Not applicable

9.2. Other information None.

SECTION 10: Stability and reactivity

10.1. Reactivity
None.
10.2. Chemical stability
Under normal circumstances the product is stable.
10.3. Possibility of hazardous reactions
None.
10.4. Conditions to avoid
Direct sunlight, hot surfaces and open flames.
10.5. Incompatible materials
Strong oxidizing agents.
10.6. Hazardous decomposition products
Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

(a) acute toxicity: Based on the available data, the classification criteria are not met

(b) skin corrosion/irritation: Based on the available data, the classification criteria are not met

(c) serious eye damage/irritation: Based on the available data, the classification criteria are not met

(d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met (e) germ cell mutagenicity: Based on the available data, the classification criteria are not met

according to: 1907/2006 z- REACH and 2015/830

10 mM Ultrapure dNTPs mix Version EN : 2.0

Issue: 13.10.2019

(f) carcinogenicity: Based on the available data, the classification criteria are not met

(g) reproductive toxicity: Based on the available data, the classification criteria are not met

(h) STOT-single exposure: Based on the available data, the classification criteria are not met

(i) STOT-repeated exposure: Based on the available data, the classification criteria are not met

(j) aspiration hazard: Based on the available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as dangerous to the environment. **12.2. Persistence and degradability** No data available. **12.3. Bioaccumulative potential** No data available. **12.4. Mobility in soil** No data available. **12.5. Results of PBT and vPvB assessment** The product contains no substance meet the criteria for PBT or vPvB. **12.6. Other adverse effects**

Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use. Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous 14.3. Transport hazard class(es) not classified as dangerous 14.4. Packing group not classified as dangerous 14.5. Environmental hazards not classified as dangerous 14.6. Special precautions for user not classified as dangerous 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code not classified as dangerous

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU REGULATIONS:

according to: 1907/2006 z- REACH and 2015/830

10 mM Ultrapure dNTPs mix Version EN : 2.0 Issue: 13.10.2019

Version EN : 2.0

Issue: 13.10.2019

SECTION 16: Other information

Abbreviations and acronyms, list of relevant hazard statements used in the safety data sheet:

PBT – Persistent, Bioaccumulative and Toxic

vPvB – very Persistent and very Bioaccumulative

ADR – International Carriage of Dangerous Goods by Road

RID – International Carriage of Dangerous Goods by Rail

IMDG – International Maritime Dangerous Goods

 $\label{eq:capacity} \textbf{ICAO}-\textbf{Safe Transport of Dangerous Goods by Air}$

<u>Method of classification:</u> Product is not classified as dangerous.

Training: Not required.

Key literature:

Annex to Regulation (EU) 2015/830. Current legislation (Section 15). Information Agency for Chemical Substances.

The information in this MSDS is based on the present state of our knowledge and on current laws. The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps to fulfil the demands set out in the local rules and legislation. The information in this MSDS is meant to be a description of the safety requirements for our product. It is not to be considered a guarantee of the product's properties.

according to: 1907/2006 z- REACH and 2015/830

SG qPCR Master Mix (2x)

Version EN : 2.0

Issue: 01.10.2019

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier SG qPCR Master Mix (2x)

Catalogue number: E0806-01 E0806-02

1.2. Relevant identified uses of the substance or mixture and uses advised againstIdentified uses:laboratory reagents, scientific research purposesUses advised against:not specified

1.3. Details of the supplier of the safety data sheet Producer: EURxSp.zo.o 80-297Gdańsk ul. Przyrodnikow 3 Poland

E-mail address of the person responsible for data sheet: eurx@eurx.com.pl

1.4. Emergency telephone number 112 (Emergency telephone)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

According to Reg. 1272/2008 Product is not classified as dangerous.

Human health dangers: None. Environmental hazards: None. Physic-chemical hazards: None.

2.2. Label elements Pictograms: None Signal Word: None Hazard Statement (H): None. Precautionary Statement (P): None.

EUH210: Safety data sheet available on request.

2.3. Other hazards The product contains no substance meet the criteria for PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.1. Substances Not applicable.

3.2. Mixtures Hazardous components: none

SAFETY DATA SHEET according to: 1907/2006 z– REACH and 2015/830

SG gPCR Master Mix (2x)

Version EN : 2.0

Issue: 01.10.2019

Components with Occupational Exposure Limits: Glycerol (CAS: 56-81-5): <10% SECTION 8

SECTION 4: First Aid measures

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

according to: 1907/2006 z- REACH and 2015/830

SG qPCR Master Mix (2x)

Version EN : 2.0

Issue: 01.10.2019

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: Glycerol (CAS: 56-81-5): <50%

	Limit value - Eight hours		Limit value - Short term	
Country	ppm	mg/m ³	ppm	mg/m³
Australia	-	10 (1)	-	mg/m³
Belgium	-	10	-	-
Canada - Ontario	-	10	-	-

	-	15 inhalable dust	-	100 inhalable aerosol
USA - OSHA	-	5 respirable dust	-	-
United Kingdom	-	10	-	-

Remarks	
Australia	(1) This value is for inhalable dust containing no asbestos and < 1% crystalline silica.
Germany (AGS)	1) Inhalable fraction (2) 15 minutes average value

according to: 1907/2006 z- REACH and 2015/830

SG qPCR Master Mix (2x)

Version EN : 2.0

Issue: 01.10.2019

Germany (DFG)	1) Inhalable fraction (2) 15 minutes average value
New Zealand	1) The value for inhalable dust containing no asbestos and less than 1% free silica.
Malaysia	TWA- time weighted average, eight (8) hours unless otherwise specified

8.2. Exposure controls

Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such <u>as personal protective equipment</u>:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable.

Environmental exposure controls:

Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Not applicable
Odour	Not applicable
Odour threshold	Not applicable
рН	Not applicable
Melting point/freezing point	Not applicable
Initial boiling point and boiling range	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable

according to: 1907/2006 z- REACH and 2015/830

SG qPCR Master Mix (2x)

ix (2x) Version EN : 2.0

Issue: 01.10.2019

Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative density	App. 1g/cm ³
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature	Not applicable
Solubility(ies)	Not applicable
Decomposition temperature	Not applicable
Viscosity;	Not applicable
Explosive properties	Not applicable
Oxidising properties	Not applicable

9.2. Other information

None.

SECTION 10: Stability and reactivity	
10.1. Reactivity	
None.	
10.2. Chemical stability	
Under normal circumstances the product is stable.	
10.3. Possibility of hazardous reactions	
None.	
10.4. Conditions to avoid	
Direct sunlight, hot surfaces and open flames.	
10.5. Incompatible materials	
Strong oxidizing agents.	
10.6. Hazardous decomposition products	
Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.	

SECTION 11: Toxicological information

11.1. Information on toxicological effects

(a) acute toxicity: Based on the available data, the classification criteria are not met

- (b) skin corrosion/irritation: Based on the available data, the classification criteria are not met
- (c) serious eye damage/irritation: Based on the available data, the classification criteria are not met
- (d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met
- (e) germ cell mutagenicity: Based on the available data, the classification criteria are not met
- (f) carcinogenicity: Based on the available data, the classification criteria are not met
- (g) reproductive toxicity: Based on the available data, the classification criteria are not met
- (h) STOT-single exposure: Based on the available data, the classification criteria are not met
- (i) STOT-repeated exposure: Based on the available data, the classification criteria are not met
- (j) aspiration hazard: Based on the available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

EURX MOLECULAR BIOLOGY	SAFETY DATA SHEET according to: 1907/2006 z– REACH and 2015/830		
PRODUCTS	SG qPCR Master Mix (2x)	Version EN : 2.0	Issue: 01.10.2019
The product is not classified as dangerous to the environment. 12.2. Persistence and degradability No data available. 12.3. Bioaccumulative potential No data available.			

No data available. 12.4. Mobility in soil No data available. 12.5. Results of PBT and vPvB assessment The product contains no substance meet the criteria for PBT or vPvB. 12.6. Other adverse effects Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use. Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous 14.3. Transport hazard class(es) not classified as dangerous 14.4. Packing group not classified as dangerous 14.5. Environmental hazards not classified as dangerous 14.6. Special precautions for user not classified as dangerous 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code not classified as dangerous

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU REGULATIONS:

- 1. Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- 2. Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- 3. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).
- Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

according to: 1907/2006 z- REACH and 2015/830

The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps to fulfil the demands set out in the local rules and legislation. The information in this MSDS is meant to be a description of the safety requirements for our product. It is not to be considered a guarantee of the product's properties.

according to: 1907/2006 z- REACH and 2015/830

RNase-free Water

Version EN : 2.0

Issue: 13.10.2019

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier RNase-free Water

Catalogue number

1.2. Relevant identified uses of the substance or mixture and uses advised againstIdentified uses:laboratory reagents, scientific research purposesUses advised against:not specified

1.3. Details of the supplier of the safety data sheet Producer: EURxSp.zo.o 80-297Gdańsk ul. Przyrodnikow 3 Poland

E-mail address of the person responsible for data sheet: eurx@eurx.com.pl

1.4. Emergency telephone number 112 (Emergency telephone)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

<u>According to Reg. 1272/2008</u> Product is not classified as dangerous.

Human health dangers: None. Environmental hazards: None. Physic-chemical hazards: None.

2.2. Label elements Pictograms: None Signal Word: None Hazard Statement (H): None. Precautionary Statement (P): None.

2.3. Other hazards The product contains no substance meet the criteria for PBT or vPvB.

SECTION 3: Composition/information on ingredients

3.1. Substances Not applicable.

3.2. Mixtures Hazardous components: none

SECTION 4: First Aid measures

Version EN: 2.0

according to: 1907/2006 z– REACH and 2015/830

RNase-free Water

Issue: 13.10.2019

4.1. Description of first aid measures

Skin contact

Wash contaminated skin with soap and water, rinse thoroughly with water, in case of irritation, redness, consult your doctor.

Eye contact

Rinse with plenty water (15min). Avoid strong water jet because of the danger of damage to the cornea. Consult your doctor.

Inhalation

Move to fresh air. Consult a physician if any symptoms develop and persist.

Ingestion

Do not induce vomiting. Rinse mouth with water. Give to drink a glass of water if victim is conscious Consult your doctor.

4.2. Most important symptoms and effects, both acute and delayed

Not applicable.

4.3. Indication of any immediate medical attention and special treatment needed

The decision about how to proceed after the physical assessment of the victim.

SECTION 5: Fire Fighting measures

5.1. Extinguishing media

Suitable extinguishing media: Powder, alcohol resistance foam. Use extinguishing methods appropriate to surrounding conditions.

Unsuitable extinguishing media: Do not use a direct water jet.

5.2. Special hazards arising from the substance or mixture

Not applicable.

5.3. Advice for firefighters

Containers in fire area cooled with water spray, if it is possible to remove the danger zone. Wear self-contained breathing apparatus. Wear protective clothing to prevent contact with skin and eyes. Do not allow fire-fighting water run-off into surface water, groundwater and sewer.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: to notify the appropriate service. Remove from the threats all person who does not participate in the removal of failure.

For emergency responders: Ensure adequate ventilation.

6.2. Environmental Precautions

Do not discharge into the drains/surface water/groundwater.

6.3. Methods and material for containment and cleaning up

Prevent spreading. Remove with inert absorbent (e.g. sand or vermiculite), and place in a close containers and hold for waste disposal.

6.4. Reference to other sections

Disposal considerations – see section 13. Personal precautions – see section 8.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

according to: 1907/2006 z- REACH and 2015/830

RNase-free Water Version EN : 2.0 Issue: 13.10.2019

Ensure adequate ventilation. Work in accordance with the principles of safety and hygiene: Do not eat, drink and smoke at work, wash your hands after use, remove contaminated clothing and protective equipment before entering places for meals.

7.2. Conditions for safe storage, including any incompatibilities

The product stored in a cool, dry, well ventilated room, in the tightly closed container. Protect from direct sunlight.

7.3. Specific end use(s)

See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational Exposure Limits: none **8.2. Exposure controls** Appropriate engineering controls: Use in well-ventilated rooms.

Individual protection measures, such as personal protective equipment:

Eye / face protection:

Use goggles or a protective face mask (according to EN 166).

Skin protection

Hand protection:

It is recommended to use protective gloves resistant to chemicals in accordance with EN-PN 374:2005.

Recommended materials: Nitrile rubber (thickness> 0.11mm, penetration time> 480min.).

The selection of suitable gloves does not only depend on the material, but also on the brand and quality resulting from differences in manufacturers. Resistance of the material, the glove can be determined after the tests. The exact time of the destruction of the protective gloves must be determined by the manufacturer.

Other:

Protective clothing.

Respiratory protection:

Avoid breathing vapors. If there is a risk of exposure to concentrated vapors, use a mask with organic vapor filter (according to EN 143).

Thermal hazards:

Not applicable. **Environmental exposure controls:** Not allowed to spread in the environment and run-off into drains and watercourses.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Liquid
Colour	Not applicable
Odour	Not applicable
Odour threshold	Not applicable
рН	Not applicable

according to: 1907/2006 z- REACH and 2015/830

RNase-free Water

Version EN : 2.0

Issue: 13.10.2019

Melting point/freezing point	Not applicable
Initial boiling point and boiling range	Not applicable
Flash point	Not applicable
Evaporation rate	Not applicable
Flammability	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapour pressure	Not applicable
Vapour density	Not applicable
Relative density	App. 1g/cm ³
Partition coefficient: n-octanol/water	Not applicable
Auto-ignition temperature	Not applicable
Solubility(ies)	Not applicable
Decomposition temperature	Not applicable
Viscosity;	Not applicable
Explosive properties	Not applicable
Oxidising properties	Not applicable

9.2. Other information None.

SECTION 10: Stability and reactivity

10.1. Reactivity
None.
10.2. Chemical stability
Under normal circumstances the product is stable.
10.3. Possibility of hazardous reactions
None.
10.4. Conditions to avoid
Direct sunlight, hot surfaces and open flames.
10.5. Incompatible materials
Strong oxidizing agents.
10.6. Hazardous decomposition products
Emits toxic fumes under fire conditions: carbon monoxide, nitrogen oxides, hydrogen chloride.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

(a) acute toxicity: Based on the available data, the classification criteria are not met

(b) skin corrosion/irritation: Based on the available data, the classification criteria are not met

(c) serious eye damage/irritation: Based on the available data, the classification criteria are not met

(d) respiratory or skin sensitisation: Based on the available data, the classification criteria are not met (e) germ cell mutagenicity: Based on the available data, the classification criteria are not met

according to: 1907/2006 z- REACH and 2015/830

RNase-free Water

Version EN : 2.0

Issue: 13.10.2019

(f) carcinogenicity: Based on the available data, the classification criteria are not met

(g) reproductive toxicity: Based on the available data, the classification criteria are not met

(h) STOT-single exposure: Based on the available data, the classification criteria are not met

(i) STOT-repeated exposure: Based on the available data, the classification criteria are not met

(j) aspiration hazard: Based on the available data, the classification criteria are not met

SECTION 12: Ecological information

12.1. Toxicity

The product is not classified as dangerous to the environment. **12.2. Persistence and degradability** No data available. **12.3. Bioaccumulative potential** No data available. **12.4. Mobility in soil** No data available. **12.5. Results of PBT and vPvB assessment** The product contains no substance meet the criteria for PBT or vPvB. **12.6. Other adverse effects**

Not applicable.

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste: The code must be given individually depending on industry and location of use. Packaging: Dispose of product waste in accordance with local regulations. The packaging is recyclable

EU REGULATIONS

Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

SECTION 14: Transport information

ADR/RID/IMDG/ICAO: 14.1. UN number not classified as dangerous 14.2. UN proper shipping name not classified as dangerous 14.3. Transport hazard class(es) not classified as dangerous 14.4. Packing group not classified as dangerous 14.5. Environmental hazards not classified as dangerous 14.6. Special precautions for user not classified as dangerous 14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code not classified as dangerous

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

EU REGULATIONS:

according to: 1907/2006 z- REACH and 2015/830

RNase-free Water Version EN : 2.0 Issue: 13.10.2019

- Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC.
- Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)
- 3. Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 (Text with EEA relevance).
- 4. Directive 2008/98/EC Of The European Parliament And Of The Council of 19 November 2008 on waste and repealing certain Directives

15.2. Chemical safety assessment

No chemical safety assessments for the mixture.

SECTION 16: Other information

Abbreviations and acronyms, list of relevant hazard statements used in the safety data sheet:

PBT – Persistent, Bioaccumulative and Toxic

vPvB - very Persistent and very Bioaccumulative

ADR - International Carriage of Dangerous Goods by Road

RID – International Carriage of Dangerous Goods by Rail

IMDG – International Maritime Dangerous Goods

ICAO – Safe Transport of Dangerous Goods by Air

Method of classification: Product is not classified as dangerous.

Training: Not required.

Key literature:

Annex to Regulation (EU) 2015/830. Current legislation (Section 15). Information Agency for Chemical Substances.

The information in this MSDS is based on the present state of our knowledge and on current laws. The product is not to be used for purposes other than those specified under section 1 without first obtaining written handling instructions. It is always the responsibility of the user to take all necessary steps to fulfil the demands set out in the local rules and legislation. The information in this MSDS is meant to be a description of the safety requirements for our product. It is not to be considered a guarantee of the product's properties.
