

Polyester Tipped Applicator

Wood handle

- Standard size tip

- Sturdy wood handle

Description

This synthetic tipped applicator is made of medical-grade polyester fiber that is carded in our factory to maintain consistency. It is non-absorbent and contains no fatty acids or latent sugars, making it ideal for specimen transport, lab work, and diagnostic kits. It is bonded securely to a sturdy wood handle by an aqueous based adhesive. Available sterile or non-sterile.
