

Safety spilltrays

Re-usable Liner can last up to 3 months for low running costs

rigid PVC base

- Saves on running costs
- Contains liquid spillages
- Provides clearly defined work area
- Easily cleaned
- APET® - environmentally friendly when incinerated
- Suitable for most hazardous spillages
- Anti-static and non-porous

Spillages are easily mopped up or retrieved.

Safety SpillTray liners fit from the Base Tray stretch...

Safety SpillTrays and Liners

Unlike disposable paper bench protectors, Biocom Safety SpillTray APET® Liners are re-usable. This reduces running costs and drastically reduces contaminated waste volume.

The rigid PVC base features specially designed stabilising edges and rounded corners for easy cleaning. Additionally, the Liner's non-porous surface allows valuable samples to be retrieved - something which is clearly not possible with absorbent paper protectors.

...and roll up for disposal

Volume of waste is clearly drastically reduced

¹polyethylene terephthalate
