- **12.7 Other adverse effects**
- **Additional ecological information:**
- **General notes:**

Do not allow product to reach ground water, water course or sewage system.
 Water hazard class 1 (German Regulation) (Assessment by list): slightly hazardous for water
 Rinse off of bigger amounts into drains or the aquatic environment may lead to increased pH-values. A high pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably reduced, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Chemicals must be disposed of in compliance with the respective national regulations.
 Must not be disposed together with household garbage. Do not allow product to reach sewage system.

- **Uncleaned packaging:**
- **Recommendation:**

Disposal must be made according to official regulations.
 Packagings that may not be cleansed are to be disposed of in the same manner as the product.
