

7/9/2025

Dear Valued Customer,

This letter is in response to your request for information for the following Falcon® products:

Pipets:

356550 – 50mL Serological Pipet

357600 – 100mL Serological Pipet

Nitrosamines - Based on information received from our material suppliers, the above listed products are not intentionally formulated with Bromine

Please be advised that we do not analyze for these substances nor do we routinely test for their presence. Based on product composition knowledge; these substances are not expected to be present. The fact that these substances are not intentionally used by the vendor that provides the resins or by Corning Life Sciences in the manufacture of Falcon plasticware does not exclude that trace levels of these substances may be present as a result of the specific characteristics of the raw materials and/or of the manufacturing processes. Final determination of the suitability of any material for their applications is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution.

If you have any questions or concerns, please contact us at CLSCustServ@corning.com

Thank you for your loyal business with Corning Life Sciences

Sincerely,

Alton Lackey
Quality Engineer
Corning Life Sciences - Discovery Labware
