Cleaver SCIENTIFIC

- Run 1 to 4 precast or hand-cast mini gels
- Simple and innovative Push-to-Lock cams for precision alignment of casting sandwich on any flat surface
- Bonded glass spacers available in different thickness
- Lift-up seal combined with extra soft silicon mat for leak free gel casting
- Streamline individual casters to maximise casting in restricted bench area of up to 4 gels simultaneously
- Injection Molded Mini Unit - durable, leak-proof environment for complete safety and long life

Applications examples:

- Polyacrylamide gel electrophoresis (PAGE or SDS-PAGE)
- 2-D gel electrophoresis
- Screening samples Protein profiling
- Evaluating sample preparation conditions
