TOGETHER, LET'S HELP SCIENCE PROGRESS

CLEARStable

Universal reliable and stable microbial preservation system

Our cryopreservative can be used for all types of microorganisms

ClearLine®

Simplify the storage of your microorganisms with CLEARStable !

80 tubes

2D version

1D version

25 tubes

- **Long-term preservation :** ensures the viability and stability of micro-organisms over long periods of time
- **Multiple freezing options:** store micro-organisms at -20°C, -80°C or in nitrogen vapour
- **Easy identification :** different-coloured capsules and beads for easy sample identification
- **Flexible options:** available with or without cryoprotectant, and with 1D or 2D barcode

TOGETHER, LET'S HELP SCIENCE PROGRESS

CLEARStable

Universal reliable and stable microbial preservation system

Our cryopreservative can be used for all types of microorganisms

ClearLine

- CLEARStable offers a reliable and innovative solution for the stable freezing and long-term preservation of micro-organisms at various temperatures
- Each cryotube contains porous beads, with or without a cryoprotective solution.
- Choice of 1D or 2D barcodes for rapid sample identification and traceability on boxes and vials

Benefits:

- Long, stable preservation
- Sterile SAL 10^{-6}
- Multiple freezing temperatures
- Easy handling
- Colour-coded identification
- Customisable options
- Made in EU

Optimise the stability and preservation of your micro-organisms with CLEARStable!
