

TECHNICAL DATA SHEET

Polyethylene caps for tubes Ø 15mm

codes 3055 and series

code	for tubes	bag qty.	bag weight	bag volume
3055	301201, 401201, 301200, 401200, 301202, 401204	2,500	4.00	0.020

SPECIFIC USE AND DESCRIPTION

Internal diameter: 14.5 mm
 External diameter: 17.05 mm
 Total length: 21.77 mm

Lightweight and ergonomic, it is grooved for better contact when working with gloves.

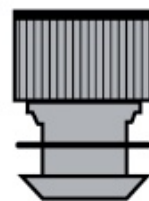

Those three flange plug caps present significant advantages over other flange caps existing in the market, which are:

- a larger size, providing a larger surface for finger rest;
- flanges have a larger size than on other caps. More space between each flange increasing the cap sealing qualities;
- a small internal cavity designed to prevent possible drop spillage;
- a raised top for easy-on, easy-off use and to avoid cap deformation from repeated removal;
- a ribbed surface;

Add these digits to the code to **define the colour**:

02: natural

07: green
