

# Low Temp PCR<sup>®</sup> Rack 96 Well

## Slide, Set, Work & Store PCR<sup>®</sup> Samples

The PCR<sup>®</sup> Storage Rack, by Heathrow Scientific, offers a sleek and modern design that's packed full of features. The patent pending design offers a unique lid the rack slides out from, and then rotates 180°, to become a convenient stand the rack sits on. Ergonomic textured finger grips provide a secure hold, reducing the chance of dropping the PCR<sup>®</sup> rack, and makes handling and transportation easy, especially when using gloves. The lid has a side opening that enables faster cooling of samples to ensure integrity and is made from translucent polycarbonate for easy sample and well identification.

The PCR<sup>®</sup> rack base is made from robust ABS construction that helps keep samples safe so you don't have to spend extra money and time on expensive retesting. A location ID of numbers and letters allows for organized sample placement which results in easy and quick sample retrieval. The PCR<sup>®</sup> rack has a closed base design that helps samples integrity by staying cold longer.

The PCR<sup>®</sup> storage rack is versatile; it can be used on a bench top or for freezer storage. The compact footprint is stackable, which helps save valuable space in the lab. The PCR<sup>®</sup> storage rack is offered in multiple colors for coding options.

- The lid is ambidextrous; it can be switched to accommodate left or right hand orientation
- The lid is detachable
- Holds 0.2mL tubes, individual or strip
- 96 well 8x12 configuration
- Can be used for freezer storage down to -80°C (-112°F)
