

## Désignation

- Sodium hydroxide solution

## Référence

- 32563-1L-HON

## Unité de vente

6 Flacons de 1 litre

---

## Caractéristiques techniques

- Boiling Point/Range : 100 °C (1.013 hPa)
- Certification : Traceable to SRM from NIST
- Color : Colorless
- Concentration : 0.1 M
- Corrosivity : Corrosive to metals
- Density: 1.000 g/cm<sup>3</sup> (20 °C)
- Flashpoint : Not applicable
- Form : Liquid
- Grade : Volumetric Titration
- Incompatible Materials : Strong acids, Metals
- Lower Explosion Limit : Not applicable
- Melting Point/Range : No data available
- Partition Coefficient : No data available
- Solubility in Water : Completely miscible
- Upper Explosion Limit : Not applicable
- Vapor Pressure : No data available
- Viscosity : No data available
- pH-Value : Alkaline
- Product Line : Volumetric
- Storage Temperature : Ambient
