Item codes	Description
1086	MEASURING JUGS, LONG FORM - PP – CAPACITY 250 ML
1087	MEASURING JUGS, LONG FORM - PP – CAPACITY 500 ML
1088	MEASURING JUGS, LONG FORM - PP – CAPACITY 1000 ML
1089	MEASURING JUGS, LONG FORM - PP – CAPACITY 2000 ML
1090	MEASURING JUGS, LONG FORM - PP – CAPACITY 3000 ML

Kartell SpA Labware Division declares under its own responsibility that the above mentioned products, to which this declaration refers, conform to the Company specifications, the inspection plan and the deposited samples

The raw materials used to produce the above mentioned items comply with the relevant requirements of:

Food-contact EU

EU Regulation (EC) No 1935/2004
EU Regulation (EC) No 975/2009
EU Regulation (EC) No 10/2011

in their actual version (inclusive of their amendments) too.

The raw material used has been manufactured in accordance with the relevant requirements of good manufacturing practice for material articles intended to come into contact with food, according to Commission Regulation (EC) 2023/2006.

Monomers and additives are not used in the manufacturing process

Substances also authorised as direct food additives ("dual use additives") are either not used for the manufacturing of this product or are only present in quantities that in case of their migration don't allow relevant contribution to exceed of the limits as set in the applicable foodstuff legislation.

FDA Title 21 CFR

Phthalates

Polyolefins do not require the use of plasticizers to make them soft and flexible. According to the information provided by our raw material supplier the raw material type currently used for production of the above mentioned products fulfills present requirements of the European Union and does not contain phthalates that have been associated with potential health issues like: di(2-ethylhexyl) phthalate (DEHP), di-iso-nonyl phthalate (DINP), di-n-butyl phthalate (DBP) and butyl benzyl phthalate (BBP)

REACH/SVHC

With reference to Regulations REACH (n. 1907/2006) concerning the Recording, the Evaluation and the Authorization of the chemical substances applied starting from the 1st of June 2008 and subsequent amendments, the plastic raw materials, as Polymers, are exempt of registration.

The raw materials Supplier is committed to fully respect REACH Legislation and will only use fully REACH compliant raw materials.

SVHC (Substances of very high concern) listed by ECHA on 28/10/2008 and updated on 19/12/2012 are not intentionally used or added.

Bovine Spongiform Encephalopathy (BSE) Transmissible Spongiform Encephalopathy (TSE)

Ingredient of animal origin are not intentionally added into the raw material currently used.
