Doc. Revision 10

Rev. date 01/10/2020

### Item code PL 576

| TECHNICAL SPECIFICATIONS |                 |   |  |  |  |
|--------------------------|-----------------|---|--|--|--|
| Description:             | Spray Bottl     | e   |  |  |  |
| Raw material:            | Body            | High density polyethylene (HDPE)  |  |  |  |
|                          | Сар             | Polypropylene (PP) / PE / POM   |  |  |  |
|                          | Inner-cap       | -   |  |  |  |
| Usage:                   | cylindrical sha | Multipurpose spray bottle perfect for misting water or chemical solutions. The cylindrical shape and the rigid bottle body guarantee high dimensional stability. Adjustable spray nozzle for ON-OFF position. |  |  |  |

| DIMENSIONS              |         |  |  |  |
|-------------------------|---------|--|--|--|
| Capacity:               | 1000 ml |  |  |  |
| Mouth internal diameter | 22 mm   |  |  |  |
| Diameter (external):    | 90 mm   |  |  |  |
| Height:                 | 260 mm  |  |  |  |
| Normalized neck:        | 28/410  |  |  |  |
| Dimensional tolerances: | ±1mm    |  |  |  |

| GENERAL FEATURES          |               |         |     |         |  |
|---------------------------|---------------|---------|-----|---------|--|
| Graduation                | -             | -       |     |         |  |
| Semi transparent:         | Yes           |         |     |         |  |
| Colour:                   | Body          | Neutral | Сар | Neutral |  |
| Temperature range:        | -10°C / +80°C |         |     |         |  |
| Autoclavable:             | Νο            |         |     |         |  |
| Sterilizable:             | By radiation  |         |     |         |  |
| Volume per stroke:        | 1,25 ml       |         |     |         |  |
| Diameter dispensing hole: | -             |         |     |         |  |
| Food contact compliance:  | -             |         |     |         |  |

## **Technical data sheet**

Doc. Revision 10

### Item code PL 576

| PACKAGING         |         |                   |               |
|-------------------|---------|-------------------|---------------|
| Pieces per bag:   | -       |                   |               |
| Pieces per box:   | 50 pcs  |                   |               |
| Pieces per pallet | 800 pcs | Pallet dimensions | 80x120x220 cm |

#### **OTHER REMARKS**

Cut drawing tube to desidered lenght before use
Bottle body height 222 mm

#### CHEMICAL COMPATIBILITY

Polyethylene and polypropylene based polymers are normally suitable for room-temperature contact with many organic solvents, diluted solutions of acids, bases and salts. They are typically not suitable for use with concentrated oxidizing acid and halogenated solvents. Detailed information on physical properties and chemical resistance (including concentration and temperature effect) is available upon request.

Several factors however may effect chemical comptibility such as temperature, concentration, contact time, presence of internal stress, wall/film thickness. The user is advised to make its own tests to determine the suitability of polymer for the particular environment/application.

#### **STORAGE CONDITIONS**

Product should be stored in its original packaging and kept dry at all times. If products is delivered on pallet regular inspection is suggested. Storage area should be clean and dry. Never expose product to direct sunlight.

Optimum storage temperature is between 10°C and 30°C, 20% to 80% RH

Avoid prolonged storage at extreme temperature. Do not exceed the following limits: -10°C / +40°C
