M96

QUICKLY AND EFFICIENTLY PIPETTE IN MICROPLATES WITH CONFIDENCE

96-channel Motorized Pipette

DOMINIQUE DUTSCHER SAS

Increase the productivity of your workflows with the all-in-one simple and intuitive PIPETMAN® M96.

Smart and Easy 96-channel Motorized Pipette

The intuitive interface on a large touchscreen assists you during your pipetting, whatever the application. Pipetting on 96-well microplates has never been this simple!

Create your protocols and choose your preferred pipetting parameters to handle various workflows.

Flexible

PIPETMAN M96 is compatible with a large variety of SBS-standard labware, and addresses different working habits with its pipetting options and improved ergonomics.

Different packaging types of PIPETMAN® DIAMOND Tips can be used with PIPETMAN M96. Optimized accessories allow for a better-organized working space with no additional footprint.

Confidence and Improved Productivity

PIPETMAN M96 reproducibility eliminates any variability caused by repetitive pipetting tasks.

Results are reliable even at a high throughput thanks to the Gilson repeatability and performance standards.

● Included in the PIPETMAN M96 box | ● Sold separately

Choose the Right PIPETMAN DIAMOND Tips for Your Need

PIPETMAN DIAMOND Tips offer a wide range of packaging according to your needs. They are designed to fit your PIPETMAN M96 perfectly and guarantee maximum accuracy and precision.

For increased productivity and minimal plastic waste, the use of Blister Refills and Reload Packs is recommended.

D200 tips are the reference tips for both P96x20M and P96x200M

*DF30ST tips are recommended to pipette up to 30 µL, and DF100ST up to 100 µL, for both P96x20M and P96x200M

**D300 tips are recommended to pipette volumes of liquids close to the nominal volume of the pipette, only for P96x200M
