Micro Centrifuge Tubes

Description

Micro Centrifuge Tube, Conical bottom, Sterile or Non-sterile

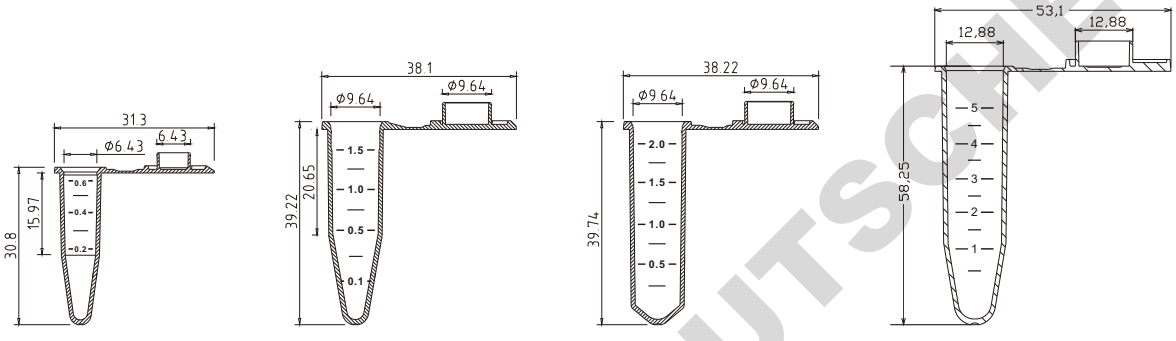

Purpose

Used for sample storage, operation and centrifugation

Materials

Tube: PP (Polypropylene)

Dimensions (Unit: mm)

0.5mL 1.5mL 2.0mL 5.0mL

Features

- Available with 4 volumes of 0.5 mL, 1.5 mL, 2.0 mL and 5.0 mL
- Autoclavable at 121°C and freezable to -80°C
- Engraved graduation ensure accuracy
- Maximum rotate speed up to 25,000 x g
- Flat and frost caps surface together with smooth and frosted body surface
- DNase/RNase free and Non-pyrogenic
- Sterilized by irradiation SAL 10^{-6} (ISO11137)
- Shelf Life: 3 years after month of production
- Manufactured in a class 100,000 clean room environment
- Manufactured under ISO13485 and ISO9001 quality management system
- To adapt to more models of centrifuges, a 5mL micro centrifuge tube can be placed into a JET 15mL centrifuge tube for centrifugation operation.
