

**Whatman™ Filter Funnel Manifolds**

Stainless steel filter funnel manifold, for microbiology monitors and analytical funnels

**Overview**

Stainless steel filter funnel manifold, for microbiology monitors and analytical funnels

# AS 300 and 600 Series

The stainless steel manifold for three or six filtration units is fitted with stainless steel units. The apparatus can be autoclaved and sterilized by dry heat at up to 180°C. Suitable only for vacuum operation. If flushing tubes are used, do not exceed 1.3 bar (300 mbar over-pressure).
