Whatman™ MBS I, Steel Frit with Ring for AS220

MBS I, steel frit with ring for AS220

Overview

MBS I, steel frit with ring for AS220

MBS I is an excellent system for optimal microbiological control using membranes. The overall procedure time is reduced to a minimum. The design of the system, which consists of an electrical membrane dispenser, a funnel dispenser, and a vacuum manifold, leads to more reproducible results.

Product specifications
Whatman MBS I, steel frit with ring for AS220

Catalog code	10445863
Filter media	Steel
