ClearLine® pH Paper

ClearLine® pH Strips

Each strip features up to 4 non-bleeding pH indicator pads. Match the colour and position of each pad on the strip to the colour chart enclosed in the packaging to determine precisely your solution's pH.

The indicator pads on these environmentally friendly strips are prepared as a non bleed system therefore the resultant colour change remains far longer and readable until the pad is dry.

Cat No	Description	Detail	Sales Unit
442400	Universal Indicator Strips, pH 0 - 14, 4 pads per strip	pH 0 - 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 - 11 - 12 - 13 - 14	100 per pack
